MUTUAL EVALUATION OF GRENADA: TENTH FOLLOW-UP REPORT
Request to move from regular follow-up to biennial updates (exit follow-up process)

Key decision: Would the Plenary agree that Grenada has taken adequate measures to exit the follow-up process?

I. INTRODUCTION

1. The third round Mutual Evaluation Report (MER) of Grenada was adopted by the CFATF Council of Ministers in May 2009 in Trinidad and Tobago. Grenada was placed on expedited follow-up and required to report every Plenary. Grenada's first follow-up report was presented at the Plenary in October 2009. No report was submitted to the Plenary in May 2010. Grenada submitted reports in November 2010, and May and November in 2011, 2012 and 2013. Grenada has submitted information in the attached matrix on measures taken, particularly, since the Ninth Follow-Up Report to comply with the examiners' recommendations. Grenada was rated partially compliant or non-compliant on ten (10) Core and Key Recommendations¹ and twenty six (26) other Recommendations. The Core and Key Recommendations ratings are indicated in italics in the table below.

Table 1; Ratings of Core and Key Recommendations

Rec.	1	3	4	5	10	13	23	26	35	36	40	I	II	III	IV	V
Rating	PC	LC	C	NC	LC	NC	PC	LC	PC	C	LC	PC	NC	NC	NC	PC

1. With regard to the remaining Recommendations, Grenada was rated partially compliant or non-compliant on twenty-seven (27) as indicated below:

Table 2: Non Core and Key Recommendations rated Partially Compliant and Non-Compliant

Partially Compliant (PC)	Non-Compliant (NC)
R. 14 (Protection & no tipping-off)	R. 6 (Politically exposed persons)
R. 17 (Sanctions)	R. 7 (Correspondent banking)
R. 20 (Other NFBP & secure transactions)	R. 8 (New technologies & non face-to-face business)
R. 25 (Guidelines & Feedback)	R. 9 (Third parties and introducers)
R. 30 (Resources, integrity and training)	R. 11 (Unusual transactions)
R. 31 (National co-operation)	R. 12 (DNFBP – R.5,6,8-11)

¹ Core Recommendations are Recommendation 1, Special Recommendation II, and Recommendations 5, 10, 13 and Special Recommendation IV. Key Recommendations are Recommendations 3, 4, 23, 26, 35, 36, 40 and Special Recommendations I, III and V.

POST-PLENARY FINAL

R. 32 (Statistics)	R. 15 (Internal controls, compliance & audit)
R. 35 (Conventions)	R. 16(DNFBP – R.13-15 & 21)
	R. 18 (Shell banks)
	R. 19 (Other forms of reporting)
	R. 21 (Special attention for higher risk countries)
	R.22 (Foreign branches & subsidiaries)
	R. 24 (DNFBP – regulation, supervision and monitoring)
	R. 33 (Legal persons – beneficial owners)
	R. 34 (Legal arrangements – beneficial owners)
	SR. VI (AML requirements for money value transfer services)
	SR. VII (Wire transfer rules)
	SR. VIII (Non-profit organizations)
	SR. IX (Cross-border Declaration & Disclosure)

2. The following table gives some idea of the level of risk in the financial sector by indicating the size and integration of the sector in Grenada.

**Table 3: Size and integration of Grenada’s financial sector
As at November, 2014**

		Banks	Other Credit Institutions*	Securities	Insurance*	TOTAL
Number of institutions	Total #	5	11		24	44
Assets	US\$	1,038.1m	180.5m.		120.26m*	1,338.86mm
Deposits	Total: US\$	942.1mm	148.8m.		n.a+	1,090.9m
	% Non-resident	18.2% of deposits			n.a	
International Links	% Foreign-owned:	% of assets	% of assets	% of assets	% of assets	% of assets
	#Subsidiaries abroad	77.3%	0		0	2,428.95m

* Estimate – Amalgamation of four smaller credit unions reduced the total to 11. Three insurance companies are 100% locally owns, two are minority locally owned and the rest are foreign.

+ Not applicable

3. In accordance with the provisions of paragraphs 67 and 68 of the CFATF Mutual Evaluation Procedures of 2007, amended in 2012 (through Communication dated August 30, 2013), and a communication from the CFATF Secretariat on June 10th, 2014, regarding “Exiting the follow-up Process”, Grenada indicated its interest in exiting the follow-up process, for which it presented a detailed matrix on September 1st, 2014, outlining the actions undertaken to resolve the deficiencies identified in the Mutual Evaluation Report (MER).

4. The Secretariat prepared a detailed analysis of the progress made in Recommendations 1, 3 (for the purposes of continued implementation), 5, 10 (for the purposes of continued

POST-PLENARY FINAL

implementation), 13, 23, 26 (for the purposes of continued implementation), 35, 40 (for the purposes of continued implementation), Special Recommendations I, II, III, IV and V, based on such matrix.

II. SCOPE OF THE REPORT

5. Based on the decision by the May 2014 ICRG and Plenary² it was agreed that once a Member satisfied the following criteria, they may apply for exiting the Follow-Up Process: a) countries who have achieved the level of C/LC in all of their Core and Key Recommendations that were rated PC/NC in their MERs to apply to exit the follow-up process; or b) Countries that have achieved the level of C/LC in all their Core Recommendations, but have one or more Key Recommendations that were rated PC/NC and still have not achieved the level of C/LC in those Recommendations to apply to exit, once they have achieved substantial compliance (the large majority of non-Core and Key Recommendations have been addressed) in their non-Core or Key Recommendations that were rated PC/NC in their MER. A process for the above, was also defined.

6. In this regard Grenada is compliant with all the Core and Key Recommendations which will be the sole object of the Report. Grenada has also made relevant progress in other Recommendations, which details can be found in the matrix attached and in a summary below.

III. MAIN CONCLUSIONS AND RECOMMENDATIONS TO PLENARY

7. **Core and Key Recommendations (classified as NC or PC):** Grenada has substantially improved the level of compliance with Core and Key Recommendations 1, 5, 13, 23, 35, and Special Recommendations I, II, III, IV and V, through the implementation of measures that effectively address all deficiencies identified in the Mutual Evaluation Report. **In addition, it raised the level of compliance with Recommendations 3, 10, 26 and 40, previously rated as LC.**

8. **Recommendation 1:** With respect to this Recommendation, the major deficiency was to ensure all predicate offenses were adequately criminalized and to ensure effectiveness in money laundering cases and convictions. Pertinent modifications to the criminal code were made and additional legislation enacted as needed to criminalize human trafficking, migrant smuggling, piracy of products, among other offenses, and number of cases and convictions grew. Therefore, there is compliance with this Recommendation, at a level essentially equivalent to at least an LC.

9. **Recommendation 5:** there were several deficiencies regarding this Recommendation, including the need to include specific provisions to apply enhanced due diligence to high risk clients. All deficiencies were cured primarily through a variety of modifications to the POCAMLTF Guidelines and there is now compliance with these Recommendations at a level essentially equivalent to at least an LC.

10. **Special Recommendation 35:** This Recommendation rated as PC, is now compliant in a level equivalent to at least an LC. In most cases, special Legislation was promoted to ensure full implementation of Vienna and Palermo Convention articles, such as the “Interception of Communications Act No. 22 of 2013” and “Protection of Witnesses Bill No. 17 of 2014”, and in the case of for instance, those referring to special investigative techniques, it was clarified that these can be dealt with administratively.

² See cfatf-plen-xxxix-icrg-co-chair-report and cfatf-plen-xxix-2014-sr.

11. **Recommendation 13 and Special Recommendation IV:** With respect to these Recommendations, the main deficiency was related to limitation in reporting obligations (i.e. subjected to an amount, or because of involving fiscal matters. This was resolved primarily through amendments to the POCAMLTF Regulations. There is now compliance with these Recommendations at a level equivalent essentially to at least an LC.

12. **Recommendation 23:** With respect to this Recommendation, the main deficiencies referred to the absence of supervision in Money Services Businesses and the lack of fit and proper requirements for entities regulated by ESRC (Caribbean Securities Regulatory Commission) and the Grenada Authority for the Regulation of Financial Institutions (GARFIN), which were solved through legislation and structural changes; despite no on-site visits being planned for 2014 with regard to Money Service Businesses, it should be noted that only three (3) companies operate in Grenada and off-site supervision is performed by GARFIN and the FIU on a permanent basis. There is now compliance with this Recommendation at a level equivalent essentially to an LC.

13. **Special Recommendations I, II, III, and V:** The deficiencies in these Recommendations were connected to each other and referred mainly to potential problems in the criminalization of the terrorist financing offence and the absence of a mechanism to implement the Resolutions issued by the United Nations Security Council (UNSC). They were mostly resolved through amendments to the Terrorist Act (TA), and a freezing mechanism was also included in the TA. These Recommendations are met in a level equivalent to an LC, with only some minor deficiencies remaining in Special Recommendations I and III, which should be addressed over time. Special Recommendations I, II, III and V are now complied with, in a level comparable to an LC. Amendments were made to the Terrorist Act to ensure the terrorism financing offence was adequately criminalized and therefore covered by Mutual Legal Assistance Mechanisms. There is a general obligation for financial institutions to freeze, seize and confiscate funds in agreement with UNSC Resolutions 1267 and 1373 immediately which can be considered as “without a delay”, and can only grant access to funds or other assets under conditions set by UNSC Resolution 1452. The country has the ability to designate individuals under UNSC Resolution 1373 and has legal provisions to give effect to, if appropriate, to freezing actions initiated under the freezing mechanisms of other jurisdictions under article 27 A of the Terrorist Amendment Act (Act No. 11, 2013).

14. **Other Recommendations:** Though this report will focus on compliance with Core and Key Recommendations, it is relevant to mention that Grenada advanced in resolving virtually all the deficiencies in R. 7, R.8, R. 11, R.14, R.15, R.17, R.18, R. 19, R.20, R.21, R. 22, R. 25, and R.30, as well as Special Recommendations VI and VII. Moreover, advancements were made regarding compliance with R.6, R.9, R.12, R.16, R. 24, R. 31, R. 32, R. 33 and R. 34, and Special Recommendations VIII and IX. A summary (not a detailed analysis) is presented in this report for information purposes.

15. **Conclusion:** Grenada received the rating of C in Recommendations 4 and 36. It also obtained an LC rating in Recommendations 3, 10, 26, and 40 and pursued further amendments to continue improving the level of compliance with these Recommendations (summary of increased compliance was also included in this report). Subsequently, through various regulatory, administrative measures, among others, Grenada achieved a satisfactory level of compliance, essentially equivalent to at least an LC in Core and Key Recommendations 1, 5, 13, 23, 35, Special Recommendations I, II, III, IV and V. In addition, progress has been made in the implementation of other Recommendations such as Recommendations: 6, 7, 8, 9, 11, 12, 14, 15, 16, 17, 18, 19, 20, 21, 22, 24, 25, 30, 31, 32, 33, 34, and Special Recommendations VI, VII, VIII

POST-PLENARY FINAL

and IX. Therefore, it is recommended that the Plenary agrees to remove Grenada from the follow-up process.

IV. SUMMARY OF PROGRESS ACHIEVED BY GRENADA SINCE LAST MUTUAL EVALUATION (NEW REGULATIONS, MEASURES TAKEN)

16. Since the MER, the authorities in Grenada began to assess the various means to achieve compliance. The main focus of the authorities was instituting changes in the legal framework including consolidation of previous statutes, legislative amendments to specific laws and proposals for new legislation. As a result of this process the following were enacted: Money Services Business Act 2009 (MSBA), in April 2009 and the Insurance Act No 5 of 2010 (IA) in December 2009. Since the Follow-Up Report of November 2011, the Proceeds of Crime Act, 2012 (POCA) was enacted in January, 2012, followed by the Proceeds of Crime (Anti-Money Laundering and Terrorist Financing) Regulations, 2012 (POCAMLTFR), the Financial Intelligence Unit Act, 2012 (FIUA), and the Terrorism Act (TA) in February 2012. At the same time on February 17, 2012, the Proceeds of Crime (Anti-Money Laundering and Terrorist Financing) Guidelines (POCAMLTF Guidelines) were issued by the Anti-Money Laundering and Combating Terrorism Financing Commission (the Commission) as per section 32(1) of POCA. These statutes and guidelines provide for measures which address a large number of the outstanding examiners' recommended actions resulting from Grenada's MER. Grenada also enacted, among others:

- The Criminal Code (Amendment) Act, 2013 (CCAA, 2013)
- Proceeds of Crime (Amendment) (No 2) Act, 2013 (POCAA No 2 2013)
- The Proceeds of Crime Anti-Money Laundering and Terrorist Financing (Amendment) Guidelines, 2013 (POCAMLTF Guidelines 2013)
- Terrorism (Amendment) (No 2) Act, 2013 (TAA No 2, 2013)
- Proceeds of Crime (Anti-Money Laundering and Terrorist Financing)(Amendment) Regulations (POCAMLTFAR)
- Banking (Amendment) Act 2013
- Offshore Banking (Amendment) Act 2013
- International Companies (Amendment)(No 2) Act 2013
- Companies (Amendment) Act, 2014
- Interception of Communications Act No. 22 of 2013
- Protection of Witnesses Bill No. 17 of 2014
- Section 15 (A) of GARFIN (Amendment) Act No. 27, 2014
- Securities (Amendment) Act No. 26, 2014
- Insurance (Amendment) Act No. 25 of 2014
- FIU (Amendment) Act, No. 27 of 2013
- Exchange of Information (Amendment) Act, No. 30 of 2014

17. Authorities also focused on resources and in this sense, increased resources and training provided to the FIU, Registrar's Office and Customs.

V. DETAILED ANALYSIS OF COMPLIANCE WITH CORE AND KEY RECOMMENDATIONS

Recommendation 1

- i. **Deficiency 1** - *The low number of ML convictions suggests ineffective use of ML provisions given the wide range of measures available under legislation.* In connection with this deficiency, examiners suggested that the authorities consider pursuing ML as a stand-alone offence. As explained in the 9th Follow-Up Report for Grenada, this was met through revisions to the POCA sections 34 and 35, which allow for the prosecution of ML without a need for conviction on the predicate offense. Authorities also submitted updated statistics on prosecutions and convictions which greatly surpass the three (3) convictions and six (6) cases before the Magistrate Court, that were presented at the time of the MER (see paragraph 87). From August 2013 to January 2014, Authorities had twenty eight (28) ML cases altogether with nineteen (19) convictions, six (6) cases were withdrawn and 3 were pending. During February to July 2014, there was one (1) additional case ongoing. **This R.1 / Deficiency 1, was rectified.**
- ii. **Deficiency 2** – *The list of psychotropic substances in the Drug Abuse (Prevention and Control) Act (DAPCA) is not in accordance with the list under the Vienna Convention.* This deficiency was solved under the Drug Abuse (Prevention and Control) Order, 2011, which repealed Part III of the Schedule I of the DAPCA, replacing it with Tables I and II, which were compliant with the Vienna Convention. **This R.1 / Deficiency 2, was rectified.** Additionally, the Minister has the power under section 3 (2) to amend the First Schedule for the purpose of adding any drug, substance or product to, or removing any drug substance or product from any of Parts I to III of that schedule.
- iii. **Deficiency 3** – *List of predicate offenses for ML does not cover five (5) of the designated category of offenses, particularly trafficking in human beings and migrant smuggling, counterfeiting and piracy of products, environmental crime and piracy or terrorist financing offense of providing or receiving money or other property in support of terrorist acts.* As explained in the 9th Follow-Up Report, the entire list of predicate offenses for ML was included in the list of predicate offenses contained in Grenada's POCA, however, as it was indicated in the MER, there was no legislation for criminalizing the offenses of human trafficking, migrant smuggling, counterfeiting and piracy of products, environmental crime and piracy or terrorist financing offense of providing or receiving money or other property in support of terrorist acts. The terrorist financing offense and in particular, the offense of receiving money or property in support of terrorist acts is now criminalized in section 19 of the TA 2012. Counterfeiting and piracy of products are criminalized in the Copyright Act no. 16 of 2011. Finally, the Criminal Code (Amendment) Act, 2013 (CCAA, 2013) was enacted in November 2013 to criminalize all other offenses listed above. It is worth noticing that all offenses have penalties of at least one (1) year and some have over five (5) years. **This R. 1 / Deficiency 3, was rectified.**

18. **General Conclusion for Recommendation 1:** This Recommendation rated as PC, has now been complied at a level equivalent to at least an LC. The number of ML cases and convictions have increased; list of controlled substances included in the Vienna Convention was fully incorporated through the Drug Abuse (Prevention and Control) Order, 2011 and all categories of predicate offenses are now criminalized.

Recommendation 5

- i. **Deficiency 1** – *CDD measures are required when there is suspicion of money laundering and only with one-off transactions.* In connection with this deficiency, examiners suggested that the authorities consider carrying out a national risk assessment to determine the risk of money laundering and terrorist financing to enable the application of reduced or simplified anti-money laundering and terrorist financing measures (see paragraph 361 of the MER in particular). To this effect, as explained in the 9th follow-up report, authorities indicate that sections 21 and 22 of Part III of the POCAMLTF Guidelines provide for customer due diligence (CDD) measures including enhanced CDD which are broader than those existing at the time of the MER (see paragraphs 325 and 326). There were some cases where enhanced CDD was required regarding credit unions, PEPs, and specific type of accounts. However this did not adequately cover all high risk categories. Section 21 of the POCAMLTF Guidelines now provides guidance on the applicability of the risk based CDD approach by financial institutions, entities or professionals. There is no indication in the POCAMLTF Guidelines, however, that a national risk assessment was conducted and used to enable the application of reduced or simplified anti-money laundering and counter terrorist financing measures. This recommendation would then be considered outstanding. However, as an element that mitigates the fact that the recommendation is outstanding, the authorities included the need for technical assistance in conducting a national risk assessment as part of Grenada's Technical Assistance and Training Needs matrix for 2013 that was submitted to the CFATF. Grenada also sent representatives to the CFATF/World Bank National Risk Assessment Workshop held in Barbados in March 2014 and authorities indicated that a meeting with persons who received training and the AML/CFT Commission would take place, to determine the way forward with regards to conducting the assessment. **R. 5 / Deficiency 2 was sufficiently addressed.**

- ii. **Deficiency 2-** *CDD measures for wire transfers are for occasional transactions over US\$10,000 rather than over the FATF US \$1,000 limit.* As described in the 9th Follow-Up Report, the above recommendation is part of the asterisked essential criterion 5.2 and in accordance with the FATF Methodology needs to be implemented by laws, decrees or regulations issued or authorized by a legislative body. The above measure was therefore incorporated in the POCAMLTF Guidelines, subsection 21(4)(c), which requires an entity to undertake CDD when there is suspicion of money laundering or terrorist financing irrespective of any exemption or threshold that may be referred to in the AMLTF Guidelines. These Guidelines were issued by the Commission and subject to negative resolution by the House of Representatives on May 28, 2013. Requirement however, was applicable only to entities and did not include professionals. An amendment to provide for the addition of the words “or professionals” wherever the word “entity” appears without the words “or professionals” in the POCAMLTF Guidelines was included as subsection 6(a) of the Proceeds of Crime (Anti-Money Laundering and Terrorist Financing) (Amendment) Guidelines, 2013 Statutory Rules and Order (SRO) 24 of 2013 (POCAMLTF Guidelines 2013). The amendment was given effect on November 15, 2013 by a resolution passed by the House of Representatives. **Consequently R. 5 / Deficiency 2 was solved.**

- iii. **Deficiency 3)** - *CDD measures are not required when there are doubts about the veracity of previously obtained due diligence.* With regard to this deficiency, as also discussed in the 9th Follow-Up Report, subsection 21 (4) (e) of the POCAMLTF Guidelines requires entities to undertake customer due diligence when the entity has doubts about the veracity and adequacy of previously obtained customer identification data. An amendment similar

POST-PLENARY FINAL

- to the explained for deficiency 2) was also done, for this provision to apply for both entities and professionals. As in the previous deficiency, the requirement is an asterisked obligation to be in law, decree or regulations and was established as such. **This R. 5 / Deficiency 3, was addressed.**
- iv. **Deficiency 4) -** *No provision to verify that any person purporting to act on behalf of the customer is so authorized, and identify and verify the identity of that person.* On this matter, section 21 (3) of the cited POCAMLTF Guidelines requires that entities and professionals verify that a person who purports to act on behalf of the customer or an applicant of business, which is a legal person, partnership, trust or other legal arrangement is so authorized and its identity is verified. Same clarification made for deficiency 3) above, in the sense of obligations being applicable to both entities and professionals and Guidelines being in law or regulations, for the purposes of asterisked obligations within FATF Recommendations. **This R. 5 / Deficiency 4, was solved.**
 - v. **Deficiency 5) –** *No requirement in law or regulation for the verification of identification of customers.* As also discussed under the 9th Follow-Up Report, this deficiency was solved through section 21 (3) of POCAMLTF Guidelines which refers to customer identification and verification. **This R.5 / Deficiency 5, was addressed.**
 - vi. **Deficiency 6) -** *No provision to understand the ownership and control structure of customers that are legal persons or legal arrangement.* As also discussed under the 9th Follow-Up Report, provisions to understand the ownership of customers that are legal persons or legal arrangements were introduced in section 21 (5) of the POCAMLTF Guidelines. Reference to the need of understanding the control structure was later included in subsection 6 (e) of the POCAMLTF Guidelines 2013. **This R. 5 / Deficiency 6, was addressed.**
 - vii. **Deficiency 7) –** *No requirement for financial institution to obtain information on the purpose and intended nature of the business relationship.* As also discussed under the 9th Follow-Up Report, this was met through subsection 21 (3) (b) of POCAMLTF Guidelines. Clarifications made as for other customer due diligence obligations described above, to apply to both entities and professionals are also applicable here. **This R. 5 / Deficiency 7, was addressed.**
 - viii. **Deficiency 8) –** *No legislative provision for financial institutions to conduct ongoing due diligence to include scrutiny of transactions and ensuring that CDD documents and information are kept up-to-date.* As also discussed under the 9th Follow-Up Report, this was met through subsection 21 (3) (e) of POCAMLTF Guidelines and through a modification to the said guidelines, contained in section 6 (c) of the POCAMLTF Guidelines 2013. This last amendment included a requirement for entities and professionals to include scrutiny of transactions and ensure CDD information is kept up to date. **This R.5 / Deficiency 8, was solved.**
 - ix. **Deficiency 9) –** *No requirement for financial institutions to perform enhanced due diligence for high risk categories of customers.* As also discussed in the 9th Follow-Up Report, subsection 22 (2) of the POCAMLTF Guidelines requires every entity or professional to engage in enhanced customer due diligence in its or his dealing with an applicant for business or a customer who, or in respect of a transaction which, is determined to be a higher risk for business, customer or transaction, irrespective of the nature or form of the relationship or transaction. **This R.5 / Deficiency 9, was solved.**

POST-PLENARY FINAL

- x. **Deficiency 10)** – *The exemptions for reduced or simplified CDD measures are not justified on the basis of low risk.* On this matter, examiners noted in several sections of the MER, that the country did not conduct a national risk assessment and that risk based approach measures were applied based on a perceived level of risk rather than a result of a structured risk framework. Provisions such as those included in subsection 21 (6) (h) of the POCAMLTF Guidelines, now stipulate that an entity and professional, in adopting a risk-based approach, may determine customers or transactions that it considers carry low risk in terms of a business relationship, and to make such a determination, the entity or professional may take into account that the applicant for business or customers are resident in foreign jurisdictions that the Commission is satisfied are in compliance with and effectively implement the FATF Recommendations. A further modification introduced in 2013 Guidelines (section 6, paragraph 6 (f)), restricts the use of simplified or reduced CDD measures to the cases where the customer risk level qualifies for this treatment (low risk) and conditions for this treatment are laid out in section 21 (8), also it expressly prohibits applying reduced CDD in the case of suspicion of money laundering or terrorist financing. **This R. 5 / Deficiency 10, was addressed.** As in cases above cited, inclusion of the words “or professionals” for subsection 21 was done by POCA (Amendment) Regs. SRO 24 of 2013 at section 6(a) (amendment of section 21 of principal guidelines).
- xi. **Deficiency 11)** – *No requirement for financial institutions to limit simplified or reduced CDD measures to non-resident customers from countries that the authorities are satisfied are in compliance with FATF Recommendations.* As explained above, **this R. 5 / Deficiency 11, was also solved.**
- xii. **Deficiency 12)** – *No provisions prohibition simplified CDD measures whenever there is suspicion of money laundering or terrorist financing.* Limitations on reduced CDD explained under deficiency 10 above, are also applicable here. **R. 5/ Deficiency 12 was addressed.**
- xiii. **Deficiency 13)** – *No requirement for financial institutions to apply CDD measures to existing customers on the basis of materiality and risk.* With regard to this deficiency, as also explained in the 9th Follow-Up Report, the authorities cited an amendment to subsection 21(4) of the POCAMLTF Guidelines in subsection 6(d) of POCAMLTFA Guidelines 2013 which requires an entity or professional to undertake CDD where there is an existing client or business relationship at appropriate times. Additionally subsection 25(5) of the POCAMLTF Guidelines was amended in section 8 of POCAMLTFA Guidelines 2013 to require an entity or professional which establishes a business relationship and is unable to carry out required or enhanced CDD to terminate the business relationship and close all existing accounts. **R.5 / Deficiency 13 was addressed.**

19. **General Conclusion for Recommendation 5:** This Recommendation rated as NC, is now complied at a level equivalent to at least an LC. Examiners made fourteen (14) recommendations to cure the thirteen (13) deficiencies stated above, **all** which were addressed as explained, with the exemption of the need for conducting a national risk assessment which is in progress. Among others, authorities ensured that the POCAMLTF Guidelines captured all relevant CDD, enhanced CDD and risk analysis. Authorities were also called upon ensuring Guidelines met the requirements of enforceability applicable to asterisked obligations under FATF Recommendations, since Guidelines were not taken as “other enforceable means” at the time of Grenada’s Mutual Evaluation (see paragraph 292). This has changed, since Guidelines are now issued by a Competent Authority, are mandatory and have sanctions for non-compliance. As

POST-PLENARY FINAL

explained in the 9th Follow-Up Report, Section 32(2) of POCA indicates that the POCAMLTF Guidelines are applicable to entities regulated by the Commission, entities designated as vulnerable to money laundering and terrorist financing by the Commission, and professionals engaged in preparing or carrying out transactions for their clients concerning the following:

- The buying and selling of real estate;
- managing client monies, securities or other assets;
- management of bank, savings or securities accounts;
- organization of contributions for the creation, operation or management of companies;
- The creation, operation or management of legal persons or arrangements;
- The buying and selling of business entities, and
- any other activity relating or incidental to any of the matters outlined above.

20. Additionally, section 4 of the POCAMLTF Guidelines specifies that every entity and professional is subject to the POCAMLTF Guidelines. The definitions of entity and professional as set out in section 2 of the POCAMLTF Guidelines with reference to sub-regulation 2(1) of the POCAMLTFR, include all financial institutions and the categories of DNFBPs and their relevant activities as required by the FATF. With regard to sanctions for breaches of the POCAMLTF, as described in the 9th Follow-Up Report and further in this report, Guidelines section 32(4) of POCA was amended by the Proceeds of Crime (Amendment) (No.2) Act, 2013 in December 2013 to increase the penalty on summary conviction of a fine not exceeding EC \$50,000 (US \$18,500) or a term of imprisonment not exceeding four years or both. Additionally, section 17 of the POCAMLTF Guidelines 2013 amends administrative penalties for specific breaches listed in Schedule IV of the POCAMLTF Guidelines. These penalties are fines ranging from EC \$10,000 (US \$3,700) to EC \$40,000 (US\$14,814) for corporate entities and EC \$7,000 (US\$2,600) to EC \$25,000 (US\$9,250) for individuals. These measures allowed for a range of penalties provides for proportional application, however while the amounts for individuals were considered dissuasive in the context of the a per capita gross domestic product of US\$7, 868 for 2011, the penalties for corporate entities are not, particularly when compared with the sanctions available under POCA which include on summary conviction a fine of EC \$500,000 or imprisonment for a term of three years or both and on conviction on indictment an unlimited fine or imprisonment for a term not exceeding ten years. In this regard, authorities advised of a draft amendment to POCA Guidelines which adjusts administrative penalties for corporate entities, raising them to a range between EC \$ 70,000 - EC \$250,000, and which could be considered as dissuasive, as it brings them closer to those established in the POCA. . Amendments were tabled in the House of Representatives on November 13, 2014. The amended Guidelines will be signed by the Chairman of the AML/CTF Commission for publication in the Government Gazette.

Recommendation 13

- i. **Deficiency 1)** – *The obligation to submit suspicious transaction reports does not apply to the proceeds of all FATF predicate offenses.* As noted under Recommendation 1 in the 9th

Follow-Up Report and in this report, the list of designated offences as set out in the Schedule attached to POCA consists of all FATF designated categories of offences including trafficking in human beings and migrant smuggling, counterfeiting and piracy of products, environmental crime and piracy and terrorist financing. However, the recommendation required the criminalization of these offences which would be a prerequisite for making them predicate offences for money laundering as required by FATF standards. It is noted that terrorist financing in particular the offence of providing or receiving money or other property in support of terrorist acts is criminalized in section 19 of the TA 2012. Counterfeiting and piracy of products are criminalized in the Copyright Act no. 16 of 2011. The CCAA, 2013 was enacted in November 2013 to criminalize the offences of trafficking in human beings, migrant smuggling, environmental crimes and piracy. Section 4 of the CCAA, 2013 inserts section 176B after section 176A of the Criminal Code Cap 72A (CC). Section 176B criminalizes migrant smuggling with a penalty on conviction on indictment of a term of imprisonment for ten years. Section 5 of the CCAA, 2013 inserts section 176C after section 176B. Section 176C criminalizes human trafficking with a penalty on conviction on indictment of a term of imprisonment for ten years. Section 6 of the CCAA, 2013 inserts section 271A after section 271 of the CC. Section 271A criminalizes environmental pollution with a penalty on conviction on indictment of a fine of two hundred thousand dollars or a term of imprisonment for fifteen years. Finally, section 7 of the CCAA, 2013 replaces former section 335 with section 355 criminalizing piracy on the sea and in the air with a penalty on conviction on indictment of life imprisonment. **R.13 / Deficiency 1 was addressed.**

- ii. **Deficiency 2)** - *Requirement to report STRs relating to the financing of terrorism is discretionary and does not include funds used for terrorism or by terrorist organizations or those who finance terrorism.* With regard to this item, as explained in the 9th Follow-Up Report, section 25 of the TA 2012, criminalises the failure to disclose information by any person in the regulated and public sectors who knows or suspects or has reasonable grounds for knowing or suspecting that another person has committed an offence under sections 19 to 22 of TA 2012. Disclosure is to be made to a police officer or a nominated officer. Sections 19 to 22 details terrorist financing offences. While section 19 of the TA 2012 criminalizes the offence of providing or receiving money or other property in support of terrorist acts, funding of terrorist organizations or those who finance terrorism has not been criminalized and therefore are not part of the suspicious transaction reporting. The authorities have advised that an amendment was made under the Terrorism (Amendment) Act 2013 (TAA 2013) which was enacted in August 2013 to insert in section 19 of the TA a provision criminalizing the providing or collecting of property for and on behalf of an individual terrorist or terrorist organization and with the intention that the property should be used or there is reasonable cause to suspect that it may be used for the purpose of terrorism. This provision directly links the provision of funding for the purpose of terrorism. However, the requirement is for the criminalization of any funding of terrorist organizations or those who finance terrorism. Section 9 of the TAA No. 2 of 2013 enacted in November 2013 criminalizes the collecting, providing or attempts to collect or provide or make available any property whether directly or indirectly to any terrorist organization or any person who is concerned or connected with the financing of terrorism. **R 13 / Deficiency 2, was addressed.**
- iii. **Deficiency 3)** - *No requirement to report suspicious transactions regardless of the amount of transaction.* With regard to this deficiency, section 20(2) of the POCAMLTF Guidelines requires employees of an entity or a professional to report any attempted

POST-PLENARY FINAL

activity or transactions without limiting it to a specific amount. **R. 13 / Deficiency 3, was addressed.**

- iv. **Deficiency 4) - No requirement to report suspicious transactions regardless of whether they are thought among other things to involve tax matters.** With regard to this deficiency, as indicated in the 9th Follow-Up Report, section 8 of POCAMLTF Guidelines 2013 amends subsection 25(5) of the POCAMLTF Guidelines which requires an entity or professional to report suspicious transactions to the FIU regardless of the amount or whether they are thought to involve tax matters. **This provision addressed R. 13 / Deficiency 4.**
- v. **Deficiency 5) – The reporting of suspicious transactions is ineffective.** With regard to this deficiency, it is important to note that as explained above, suspicious transaction reporting obligations were limited and this in turn made reporting ineffective. **Once these were addressed, this deficiency in turn, was closed.** Also, authorities indicated that the number of STRs received has been increasing and see comparative table including “Actions by the Judicial System in cases of Money Laundering. See tables below (Source: FIU).

STRs Reported	Year
65	2009
100	2010
205	2011
155	2012
215	2013
130	2014 (as of October 2014)

Status of STRs	2004-2007 (MER page 55)	2009-2014 (sample post Mutual Evaluation)
Received	141	870
Closed	43 (1 prosecution derived from all STRs reported according to Paragraph 216 MER)	According to the National Drug Avoidance Secretariat statistics, 25 criminal procedures initiated (2 convictions) derived from a STR in 2013, 3 in 2014, see specific table below.

Action	Number Of Persons Arrested Based On Investigations		Number Of Criminal Procedures Initiated		Number Of Persons Tried		Number Of Persons Convicted		Value Of Confiscated Property	Investigation Of Cases Of Laundering Of Money Derived From Illegal Drug Trafficking	Amount Of Cash Seized

TOTAL	1		1		1		0		\$200,000	0	0

21. **General Conclusion for Recommendation 13:** This Recommendation rated as NC, is now complied at a level equivalent of at least, LC. As explained for Recommendation 1, all the designated categories of predicate offenses were covered by legislation but not all were criminalized and this had an impact on suspicious transaction reporting obligations being applicable to all predicate offenses. Changing this, together with the fact of all suspicious transactions should be reported regardless of the amount, or of them involving among others, fiscal matters, derived in fairly effective reporting. It has also resulted in an increase in investigations and seizures as shown in tables above.

Special Recommendation II

- i. **Deficiency 1) –Criminalization of terrorist financing does not include all offences in the Annex to the Terrorist Financing Convention.** With regard to this deficiency, as explained in the 9th Follow-Up Report, examiners recommended that Schedule 2 of the TA was amended to include the treaties on the Convention on the Physical Protection of Nuclear Material and the International Convention for the Suppression of Terrorist Bombing. This recommendation resulted from the definition of terrorist act as set out in previous TA not including offences under the treaties on the Convention on the Physical Protection of Nuclear Material and the International Convention for the Suppression of Terrorist

Bombing as required by Article 2 of the Terrorist Financing Convention. It is noted that the TA which replaced the previous Act not only did it fail to include offences from the recommended Conventions but also appeared to have excluded the other Conventions which were previously listed in Schedule 2 of the previous TA. Section 2 of the TA was amended by the TAA 2013 in August 2013 by inserting a new paragraph (iii a)) revising the definition of terrorism to include offences within the scope of and defined in any of the treaties listed in Part IA of the Fifth Schedule, which among others, included the Terrorist Financing Convention to ensure all treaties were covered. This Fifth Schedule to the TA was amended by the TAA 2013 to include the Conventions required by Article 2 (a) of the Terrorist Financing Convention. **Consequently the SR. II / Deficiency 1, was addressed.**

- ii. **Deficiency 2** - *The terrorist financing offences do not cover the provision/ collection of funds for an individual terrorist.* With regard to this matter, sections 19 to 22 of the TA criminalizes the soliciting, receiving, providing, using, possessing and arranging for property to be used for terrorist purposes. Additionally, the facilitating of the retention or control by or on behalf of another person of terrorist property is also criminalized. Terrorist property is defined in section 18 of the TA to mean property however acquired which is likely to be used for the purpose of terrorism, proceeds from the commission of acts of terrorism and proceeds of acts carried out for the purpose of terrorist acts. The above provisions specifically only criminalize the provision/collection of funds to be used for terrorism and not all funds collected for or on behalf of an individual terrorist. The authorities later advised that an amendment was made under the TAA 2013 which was enacted in August 2013 to insert in section 19 of the TA a subsection 3(a) criminalizing the providing or collecting of property for and on behalf of an individual terrorist or terrorist organization and with the intention that the property should be used or there is reasonable cause to suspect that it may be used for the purpose of terrorism. This provision directly links the provision of funding for the purpose of terrorism. However, the requirement is for the criminalization of any funding of an individual terrorist. Section 9 of the TAA No. 2 of 2013 amends subsection (3a) of section 19 of the TA by inserting paragraph (aa) which criminalizes the collecting, providing or attempts to collect or provide or make available any property whether directly or indirectly to any terrorist organization or any person who is concerned or connected with the financing of terrorism. This provision refers to terrorist organization and persons concerned or connected with the financing of terrorism and does not include individual terrorists. However, authorities advised of a further amendment to the TA, approved on November 13th 2014, which would amend section 19 to also include the collection of any funds or on behalf of an individual terrorist, with this, **the deficiency (SR. II / Deficiency 2), was addressed.**
- iii. **Deficiency 3)** – *The terrorist financing offense of fund-raising is not subject to any sanctions and therefore is not a predicate offence for money laundering.* As discussed in the 9th Follow-Up Report, the terrorist financing offences set out in sections 19 to 22 of the TA include the offence of providing or receiving money or other property in support of terrorist acts. The penalties for offences under sections 19 to 22 of the TA consist of on summary conviction a fine not exceeding EC\$ 400,000 or imprisonment for four years or both and on conviction on indictment to a fine not exceeding EC \$1,000,000 or to imprisonment for thirty years or both. **This SR. II / Deficiency 3, was addressed.**
- iv. **Deficiency 4)** *The terrorist financing offence of fund-raising does not apply regardless of whether the person alleged to have committed the offence is in the same country or a different country from which the terrorist/ terrorist organization is or the terrorist act*

occurred / will occur. As discussed on the 9th Follow-Up Report, the terrorist financing offences as set out in sections 19 to 22 of the TA do not provide for the terrorist financing offence of fund-raising to apply regardless of whether the person alleged to have committed the offence is in the same country or a different country from the one in which the terrorist/terrorist organization is or the terrorist act occurred/or will occur. The TA was amended by the TAA 2013 by the insertion of a new section 22A which allows for the terrorist financing offence occurring outside of Grenada to be treated as having been committed in Grenada. **Consequently this SR. II / Deficiency 4, was solved.**

- v. **Deficiency 5) – Effectiveness of terrorist financing regime is difficult to assess in light of the absence of investigations, prosecutions and convictions for FT.** With regard to this deficiency, authorities indicated that legislation is in place but there has not been to date, any suspicion of TF or cause for investigations, prosecutions or convictions. This deficiency is however palliated by the fact of amendments made to the TF offense to bring it in compliance with Special Recommendation II, and mechanisms in place under Special Recommendation III. Also, it must be mentioned that Grenada is an island country and sovereign state in the Caribbean with an area of 344 square km (133 square miles), and a small financial sector (see Table 3 above), with an estimated population of 110,000. There are no known reports of Terrorist Organizations operating in or from Grenada and it is therefore possible to ascertain that there is a low risk of TF. **Hence, this deficiency is considered addressed.**

22. **General Conclusion for Special Recommendation II:** This Recommendation rated as NC, is now complied at a level essentially equivalent to, at least an LC. The Terrorism Financing offense was amended to fully include offenses established in the Annex to the Convention for the Suppression of the Financing of Terrorism and includes, among others, the provision/collection of funds for or on behalf of an individual terrorist.

Special Recommendation IV

- i. **Deficiency 1) - No requirement to report STRs relating to the financing of terrorism, is discretionary and does not include funds used for terrorism or by terrorist organisations or those who finance terrorism.** As discussed in previous follow-up reports with regard to this matter, section 25 of the TA 2012, criminalises the failure to disclose information by any person in the regulated and public sectors who knows or suspects or has reasonable grounds for knowing or suspecting that another person has committed an offence under sections 19 to 22 of TA 2012. Disclosure is to be made to a police officer or a nominated officer. Sections 19 to 22 detail terrorist financing offences. While section 19 of the TA 2012 criminalizes the offence of providing or receiving money or other property in support of terrorist acts, the funding of terrorist organizations or those who finance terrorism was not criminalized and therefore are not part of the suspicious transaction reporting.

The authorities advised that an amendment was made under the TAA 2013 was enacted in August 2013 to insert in section 19 of the TA a provision criminalizing the providing or collecting of property for and on behalf of an individual terrorist or terrorist organization and with the intention that the property should be used or there is reasonable cause to suspect that it may be used for the purpose of terrorism. This provision directly links the provision of funding for the purpose of terrorism. However, the requirement is for the

POST-PLENARY FINAL

criminalization of any funding of terrorist organizations or those who finance terrorism. Finally, section 9 of the TAA No. 2 of 2013 amends subsection (3a) of section 19 of the TA by inserting paragraph (aa) which criminalizes the collecting, providing or attempts to collect or provide or make available any property whether directly or indirectly to any terrorist organization or any person who is concerned or connected with the financing of terrorism. This provision addressed this deficiency. **SR. IV / Deficiency 1 was addressed.**

- ii. **Deficiency 2-** *No requirement to report all suspicious transactions including attempted transactions, regardless of the amount of transaction.* As also explained in the 9th Follow-Up Report, this was addressed through section 20(2) of the POCAMLTF Guidelines requiring employees of an entity or a professional to report any attempted activity or transactions. **SR. IV / Deficiency 2 was addressed.**
- iii. **Deficiency 3 –** *There is no requirement to report suspicious transactions regardless of whether they are thought among other things to involve tax matters.* As explained in the 9th Follow-Up Report, section 8 of POCAMLTF Guidelines 2013 amends subsection 25(5) of the POCAMLTF Guidelines requiring an entity or professional to report suspicious transactions to the FIU regardless of the amount or whether they are thought to involve tax matters. **SR. IV / Deficiency 3 was addressed.**

23. **General Conclusion for Special Recommendation IV:** This Recommendation rated as NC, is now complied at a level essentially equivalent to, at least, LC. Limitations on suspicious transaction reporting were eliminated and the obligation to report attempted transactions was included, among other improvements, which raised the overall level of compliance with this Recommendation.

Recommendation 23

- i. **Deficiency 1 –** *There is a limited number of inspections by the Eastern Caribbean Central Bank (ECCB) in the last four years, is ineffective to ensure compliance of its licensees.* With regard to this matter, for the 9th Follow-Up Report, authorities advised that the ECCB conducted on-site examinations of three (3) banks during the last three (3) years, the most recent of which occurred as at March 31, 2013. These examinations included checks to ensure compliance with AML/CFT obligations. Information submitted for that report states that comprehensive inspection/supervision was carried out by the ECCB during the period June 24 to July 5, 2013 to ensure that the banks policies, programmes and the country's AML/CFT legislations are adhered to. The ECCB assured that inspection of countries are done randomly before scheduling an inspection within the region. The records of the bank are taken in to consideration in assessing its vulnerability to ML/TF. Authorities indicated that sanctions were not needed for any AML/CFT breaches, since area of breach was very minor. No inspections reported for 2014, however authorities further indicated that though there are no inspections planned for 2014, off-site monitoring is done on a consistent basis by the ECCB, the banks are in constant contact and are required to submit weekly, monthly, quarterly and annual reports. If there is an issue with any of the reports more than usual communication would be necessary to rectify deficiency. **This deficiency (R.23 / deficiency 1) was sufficiently addressed.** Authorities also made reference to recent training administered by the FIU and the Commission in the area of Compliance Audit, on 23rd and 24th September, 2014. Reference was also made to a follow-up workshop held November 17th 2014 and another upcoming on 1st December, 2014, in preparation for the first on-site inspection of a Credit Union scheduled for 3rd and 4th December, 2014. Six (6) supervisors attended the session geared at

POST-PLENARY FINAL

developing a questionnaire/checklist among other things. Inspection of other Financial Institutions will take place during the first quarter of 2015.

- ii. **Deficiencies 2) and 3)** – *No indication in law that fitness and probity checks on directors, shareholders, and management of licensees is a requirement for the licensees of the ECSRC or GARFIN.* As noted in the 9th Follow-Up Report and in the follow-up report of May 2012 the above recommendation for legal provisions to be enacted for fitness and probity checks on directors, shareholders and management of licensees of the ECSRC and the Grenada Authority for the Regulation of Financial Institutions (GARFIN) was partially met for the licensees of GARFIN under the provisions of the Insurance Act and the Money Services Business Act (MSBA). To further address this deficiency, authorities issued the Section 15 (A) of Garfin (Amendment) Act No. 27, 2014 which contains fit and proper requirements for shareholders and directors or who performs senior management functions in licensees by GARFIN. Authorities also presented a Securities (amendment) No. 26, 2014 which broadens application of fit and proper requirements to ensure that they are applicable to directors, officers and whoever performs corporate management functions in the licensee. **Therefore, these deficiencies (R. 23 / Deficiencies 2 and 3) were addressed.**
 - iii. **Deficiency 4)** - *No supervisory regime and by extension, no reporting obligations are in place for money service business (MSB's).* As indicated for the 9th Follow-Up Report, authorities had indicated in previous reports that a legal framework was established for implementing effective systems for monitoring and ensuring compliance with AML/CFT requirements by the enactment of the MSBA and that GARFIN had begun an on-site inspection regime by inspecting all three (3) money service operators in Grenada in 2011. It was noted that one of the money service operators did not require IDs from their clients to conduct transactions. No sanction was applied but a recommendation for remedial action was made and was complied with within three (3) months of the date of GARFIN's inspection report. No inspections of money service operators occurred during 2012. One (1) inspection was completed in January 2013. There were no major compliance issues arising from the inspection. GARFIN maintained constant contact with the institution to ensure submission of annual audited financial statements and follow-ups. GARFIN has also been conducting off-site supervision of all money service operators during 2013. There were no on-site inspections conducted by GARFIN on Money Services Businesses during the 2014. However as a result of the FIU's constant training conducted with the MSB's and the sharing of emerging trends and typologies the MSBs have developed a close relationship with the Financial intelligence Unit and as such a significant number of SARs have been reported for the year. Number of SARs reported by MSB's as at 4th November 2014 is 75 while previously in the entire year 2013 was 118, and in 2012 it was 113. It is also important to note, that the size of sector is relatively small, only three (3) MSB businesses, two (2) (Money Gram and Western Union) of them are actually agents of and part of a wider Caribbean and out the Caribbean company with global AML/CFT policies and procedures (this comment is not meant to prejudge effectiveness of such programs, but to state that as a minimum basic procedures and policies would be in place). **The above measures suggest that the R 23 / Deficiency 4 was solved.**
24. **General Conclusion for Recommendation 23:** This Recommendation rated as PC, is now complied at a level essentially equivalent of at least an LC. This considering that supervision for Money Services Businesses is in place and that fit and proper requirements are in place for directors, officers, shareholders and any individual who exercises corporate management functions for both GARFIN and ECSRC Licensees.

Recommendation 35

- i. **Deficiency 1)** – *All designated categories of offences are not adequately addressed in the range of predicate offences.* As described for Recommendation 1 in this report, and in the previous follow-up report, the list of designated offences as set out in the Schedule attached to POCA consist of all FATF designated categories of offences, though some of the offences lacked criminalization. Terrorist financing in particular, the offence of providing or receiving money or other property in support of terrorist acts is criminalized in section 19 of the TA 2012. Counterfeiting and piracy of products are criminalized in the Copyright Act no. 16 of 2011. The CCAA, 2013 was enacted in November 2013 to criminalize the offences of trafficking in human beings, migrant smuggling, environmental crimes and piracy. Section 4 of the CCAA, 2013 inserts section 176B after section 176A of the Criminal Code Cap 72A (CC). Section 176B criminalizes migrant smuggling with a penalty on conviction on indictment of a term of imprisonment for ten years. Section 5 of the CCAA, 2013 inserts section 176C after section 176B. Section 176C criminalizes human trafficking with a penalty on conviction on indictment of a term of imprisonment for ten years. Section 6 of the CCAA, 2013 inserts section 271A after section 271 of the CC. Section 271A criminalizes environmental pollution with a penalty on conviction on indictment of a fine of two hundred thousand dollars or a term of imprisonment for fifteen years. Finally, section 7 of the CCAA, 2013 replaces former section 335 with section 355 criminalizing piracy on the sea and in the air with a penalty on conviction on indictment of life imprisonment. **This R.35 / Deficiency 1) was addressed.**

- ii. **Deficiency 2)** – *Not all relevant articles of the Conventions have been fully implemented.* As noted in the 9th Follow-Up Report, in Grenada’s MER, there were no legislative provisions covering Articles 8, 10, 11 of the Vienna Convention and Articles 20 and 24 of the Palermo Convention. In this regard, article 8 was incorporated with regard to transfer of proceedings, however, it remains outstanding. This because authorities cited sections 24 and 25 of the Mutual Assistance in Criminal Matters Act Cap 202B which cover other aspects of the Palermo Convention, such as “assistance in transferring of prisoners” for the purposes of providing, for instance, evidence in a process, but not the “transfer of proceedings” as such. This would include the possibility of transferring documentation to foreign authorities, to secure conviction / higher sentence. If offender is not already in the country, there may be a transfer through an extradition or similar agreement. With regard to Article 10, authorities cited the Mutual Assistance in Criminal Matters Act and the Financial Intelligence Act No. 14 of 2012 (section 21) which addresses agreements and arrangements between, for instance, the FIU and other foreign intelligence units, and this covers in a way, what is required by article 10 of the Convention. The FIU has the ability to celebrate agreements and expand the prevention network available to a country like Grenada. In the case of article 11, which refers to controlled delivery, authorities indicate that this can be dealt administratively and through bilateral and multilateral agreements. For example the (RRU) Rapid Response Unit is a unit of the Royal Grenada Police Force and they have bilateral agreements with other OECS countries, as St. Vincent. They combine forces and conduct successful sting operations especially in drug related matters. Finally with regard to articles 20 and 24 of the Palermo Convention, which cover Special Investigative Techniques and the Protection of Witnesses, they were both covered separately by the “Interception of Communications Act No. 22 of 2013” and the “Protection of Witnesses Bill No. 17 of 2014. The Interception of Communications Act contains provisions that would allow authorities, once a warrant is issued, to intervene communications within a network, for

the purposes of obtaining evidence in a process, among others. Section 30 of the Act establishes there is certain information, that once is protected by law (and examples of banking and financial secrecy are provided) will remain a privilege, however this should not be deemed as hindering application of article 20, in accordance to domestic law. Particularly, since as described in its MER, there are no secrecy laws in Grenada (Recommendation 4 was rated C) and authorities have the ability to share information. The Protection of Witnesses Bill does allow for witnesses' protection, provides forms to that effect, and even contains the possibility for a witness to provide evidence via remote or virtual presence. **This R. 35 / Deficiency 2, was addressed.**

25. **General Conclusion for Special Recommendation 35:** This Recommendation rated as PC, has still elements outstanding. Special Legislation was promoted to ensure full implementation of Vienna and Palermo Convention articles but was found to still have a minor deficiency to address with regard to the transferring of proceedings, therefore making it possible to conclude that this Recommendation is now complied at a level essentially equivalent to LC.

Special Recommendation I

- iii. **Deficiency 1) (unique deficiency)** – *No requirement to freeze terrorist funds or other assets of persons in accordance with UN Resolutions (S/RES/1267(1999) and (S/RES/1373(2001)).* As explained in the 9th Follow-Up Report, the examiners recommendation proposed to cure this deficiency, that the authorities implement the UN Security Council Resolutions relating to the prevention and suppression of terrorist financing as set out in S/RES/1267(1999) and S/RES/1373(2001). The authorities have advised that both UN Security Council resolutions have been implemented in the TAA (No. 2) Act 35 of 2013 and the TAA (No. 11) 2014. The specific provisions of the TAA (No. 2) Act 35 of 2013 addressing this matter are discussed in this report in the section under Special Recommendation III, though with some deficiencies noted. **Therefore SR. I / Deficiency 1, was addressed.**

26. **General Conclusion for Special Recommendation I:** This Recommendation is still outstanding.

Special Recommendation III

- i. **Deficiency 1)** – *No provision in the TA for the freezing of property other than restraint orders (Examiner's recommendation: The TA should be amended to allow for the freezing of terrorist funds or other assets of persons designated by the United Nations Al-Qaida and Taliban Sanctions Committee in accordance with S/RES/1267(1999)).* With respect to this matter, as explained in the 9th Follow-Up Report, the authorities have advised that the TAA (No. 2) Act 35 of 2013 amends section 14 of the TA by inserting freezing provisions for designated entities in accordance with the requirements of S/RES/1267(1999). With regard to the examiners' recommendation it is noted that it reflects the requirements of the first criterion of SR. III in the FATF methodology. The criterion requires the freezing of funds including funds derived from funds or other assets owned or controlled directly or indirectly or other assets of entities designated by the United Nations Al-Qaida and Taliban Sanctions Committee without delay. In order to assess compliance, the provisions of the TAA (No. 2) Act 35 of 2013 had to be analyzed against the requirements of the criterion. With regard to the freezing of funds of designated entities, section 5 of the TAA (No. 2) Act 35 of 2013 amends section 14 of the

TA by inserting subsection 14A. Subsection 14A(1) defines designated entities for section 14AB and 14C, to mean individuals or entities and their associates designated as terrorist entities by the Security Council of the United Nations. Section 14A requires the FIU to maintain a list of designated entities to be circulated to financial institutions which are required to report **immediately** to the FIU whether any designated entity has funds with the institution. Section 14B provides for the Attorney General to submit on the basis of information supplied by the FIU from a financial institution, an ex-parte application to a judge for an order to freeze without delay the funds of any designated entity. Additionally and very importantly, section 14AB of the TAA (No. 2) Act 35 of 2013 was repealed in Act No. 28, 2014, which sets a requirement for all Financial Institutions to **immediately** freeze assets and at the same point in time immediately inform the FIU and the Attorney General, as well as the designated entity, that funds have been frozen. While this process is in general accordance with the requirements of the criterion there are some specifics which need further clarification. There is no definition of funds in the Act to compare against the requirement of the criterion. However, section 27A (TAA 11 of 2013), for example, though related to a separate process, as well as other sections of the TA (Principal Act of 2012), define “property” to freeze as follows: “includes money or property where situated and whether real or personal, heritage or movable, and things in action and other intangible or incorporeal property”, and this is close to the definition of funds or other assets, though not as descriptive as required.³ It is also relevant to argue that given that Grenada acceded to the UN Convention on the Suppression of the Financing of Terrorism since December 13th, 2001; has taken action to implement articles as described along in this report, and in the same act, the cited Convention is included among treaties listed for the definition of offence and processes derived therein, it is possible to imply that the definition of funds as per the Convention, in the absence of a specific definition for funds, could be invoked by a court (though preferably to be included expressively over time, since this has not been tested). Additionally, the length of time taken to implement any freezing order from the moment a financial institution has identified funds held by a designated entity to the enforcement of a freezing order is limited if any, since financial institutions have an obligation to **immediately** freeze and this is relevant while assessing compliance with the requirement to freeze “without delay”. It should be noted that the requirement “without delay” has been consistently defined in these circumstances as a period of hours from the moment of first identification by the financial institution to the enforcement of the freezing order. In this regard, authorities explained that the amendment to the Terrorism Act (Act No. 28, 2014), requires Financial Institutions to freeze **immediately** regardless of the process to follow under 14B. Requests under 14B, would also be dealt with in a relatively immediate manner. The court in its normal course of functioning facilitates the granting of Orders within a day or two, depending on the time of day in which it is made or even within the same day (i.e. case of detention orders). Grenada has seized (as described under Recommendation 3 and other sections of this Report) funds and other property and have made several applications to the court for Detention Orders in order to apply for forfeiture in various instances. The process is a fairly simple one, the application is taken

³ According to FATF Special Recommendation III, the term *funds or other assets* mean financial assets, property of every kind, whether tangible or intangible, movable or immovable, however, acquired, and legal documents or instruments in any form, including electronic or digital, evidencing title to, or interest in, such funds or other assets, including but not limited to, bank credits, travellers cheques, bank cheques, money orders, shares, securities, bonds, drafts or letters of credit, and any interest, dividends or other income or value accruing from or generated by such funds or other assets.

- to the Court along with an affidavit. The Applicant then signs the affidavit, (done in triplicate) in front of the Registrar, he then takes it to the Court Clerk for filing. That same document is then taken to the Magistrate who once satisfied with the grounds for the application grants the Order. A copy is served on the Respondent and an Acknowledgement of Service is signed by the parties. This contributes to the fact of freezing being done within a reasonable amount of time. **In conclusion, SR. III / Deficiency 1) was addressed.**
- ii. **Deficiency 2)** – *No provisions for freezing of terrorist funds or other assets of designated persons in accordance with S/RES/1267 (1999) and S/RES/1373 (2001) (Examiners recommendation: TA should be amended to provide for the freezing of terrorist funds or other assets of persons designated in the context of S/RES/1373(2001)).* As for the prior follow-up report, the authorities have also advised that the TAA (No. 2) Act 35 of 2013 also includes the requirements of S/RES/1373(2001) since persons designated under S/RES/1373(2001) are covered in the definition of designated entities in subsection 14A(1). As such, the process outlined above for S/RES/1267(1999) will also be applicable for S/RES/1373(2001) and as explained above, was almost sufficient. Additionally, there were doubts on the publicity of listing which would enable individuals designated under 14B, since provisions indicate that a list “may” be published and it does not make it mandatory. A further amendment reflecting a change to replace the word “may” with the word “shall” which makes it mandatory would have been approved in November 2014. **This SR. III / Deficiency 2, was addressed.**
- iii. **Deficiency 3)** – *No provision in TA to provide for confiscation of property used in connection with the commission of the terrorist financing offence of fund-raising under section 8 of the of TA.* As indicated in the 9th Follow-Up Report, authorities have cited amended section 27A of the TA which provides for the freezing of property of terrorists, however this does not refer to the terrorist financing offence of fund-raising as required by examiners recommendation related to this deficiency. Further Amendment seemed to address outstanding issue and was approved on November 13th, 2014. Country needs to explain why items (words) 3 and 4 were deleted and replaced with 22A solely, since it seems this would imply provisions with regard to 3) Terrorism and 4) Weapons training of the Principal Act (16, 2012) are being deleted. This minor matter would be addressed on an already scheduled amendment. Authorities also continue to work to ensure adequacy and integrity of the TA, which has been amendment in several occasions. **SR. III / Deficiency 3 was sufficiently addressed.**
- iv. **Deficiency 4)** – *No mechanism available where victims of offense committed under the TA are compensated consistent with Article 8 of the Terrorist Convention.* This SR. III / Deficiency 4, was addressed. As explained in the 9th Follow-Up Report, section 12 of the TAA (No 2) Act 35 of 2013 amends section 55 of the TA by inserting subsection (55A) which allows for the sharing of property derived from forfeiture pursuant to the TA and the compensation of victims of offences under the Act from forfeited property. The above provision should allow for the establishment of a mechanism for compensation of victims. **This deficiency (SR. III / Deficiency 4) was addressed.**
- v. **Deficiency 5)** – *No clear guidance issued to financial institutions concerning their obligations in taking action for freezing accounts in relation to the circulated lists of terrorists and/ or terrorist organisations.* As indicated in the 9th Follow-Up Report, no information has been provided regarding this deficiency which therefore remains outstanding. Currently, authorities explained that the FIU receives the list from the Ministry of Foreign Affairs and sends it to all Financial Institutions under section 14AB

of TAA 2014, with an enclosed *letter* that serves as guidance, requesting them to update their asset freeze list and if they observe any names on the list that hold accounts with them, they should immediately bring to the attention of the Financial Intelligence Unit who would act immediately. The last communication was sent out in November 2013. The country also monitors for any updates in a proactive basis. **SR. III / Deficiency 5 was sufficiently addressed.**

- vi. **Deficiency 6)** – *No publicly-known procedure for de-listing of names of proscribed organizations and terrorists listed in the Schedule to the TA.* With regard to this deficiency, as explained in the 9th Follow-Up Report, section 7 of the TAA (No 2) Act 35 of 2013 amends section 14 of the TA by inserting section 14B which provides for the Attorney General to submit on the basis of information supplied by the FIU from a financial institution an ex parte application to a judge for an order to freeze without delay, the funds of any designated entity. Additionally, subsections (8) to (12) establish procedures for entities which include designated entities affected by freezing orders under subsections (3) and (4) of section 14B of the TA to challenge such freezing orders. The Attorney General under subsection (11) of section 14B is required to review all freezing orders implemented under subsection (3) every six (6) months to determine whether the circumstances continue to exist in respect of the listed entity. One of the circumstances for consideration is whether the individual or entity is still designated as a terrorist entity by the Security Council. Consequently once the Security Council has delisted a name, an application to revoke any relevant freezing order will be made. **SR. III / Deficiency 6 was solved.**

Deficiency 7) – *No procedures for authorizing access to funds or other assets that were frozen via restraint orders, necessary for basic expenses and the payment of certain types of fees in accordance with S/RES/1452(2002).* The authorities have cited subsection (4) of new section 14B of the TA which allows the Court in an order to freeze the funds of a designated entity to make provisions for living and legal expenses of the individual or legal entity as the case may be. While the provision does provide for the payment of basic expenses there is no reference to the requirements of S/RES/1452(2002) which specifically list basic expenses: payment for foodstuffs, rent, mortgage, medicine and medical treatment, taxes, insurance premiums etc. Additionally access for the payment of such expenses can only be granted after notification of the Committee established pursuant to 1267(1999) of the intention to authorize access to such funds and in the absence of a negative decision by the Committee within 48 hours of such notification. Given the above, this recommendation deficiency had only been solved partially. Section 14B of the principal Act was further amended in November 13th, 2014, to include precise references to items listed in S/RES/1452(2002) and to the need of prior authorization. **SR. III / Deficiency 7 was addressed.**

- iv. **Deficiency 8)** – *Difficult to assess effectiveness of mechanism for ensuring compliance with TA due to lack of statistics.* **SR. III / Deficiency 8** was outstanding as there have not been TF cases, though measures are in place, as indicated by authorities and described throughout this report. The deficiency is however palliated by the fact of amendments made to the TF offense to bring it in compliance with Special Recommendation II, and mechanisms in place under Special Recommendation III (though with some items that require improvement). Also, it must be mentioned that Grenada is an island country and sovereign state in the Caribbean with an area of 344 square km (133 square miles), and a small financial sector (see Table 3 above), with an estimated population of 110,000. There are no known reports of Terrorist Organizations operating in or from Grenada and

it is therefore possible to ascertain that there is a low risk of TF. **Hence, this deficiency (SR. III / Deficiency 8) is considered addressed.**

27. **General Conclusion for Special Recommendation III:** This Recommendation is now compliant on a level comparable to an LC, level of compliance was increased through a number of amendments to the Terrorism Act which developed the legal mechanisms that would enable financial institutions to immediately freeze terrorist funds or other assets and provide access to funds or other assets only for certain expenses as required by UNSC Resolution 1452. The country also has the authority to designate the persons and entities that should have their funds or assets frozen, as well as to examine and give effect to, as appropriate, to actions initiated under the freezing mechanisms of other countries.

Special Recommendation V

- i. **Deficiency 1) – *Not of all TF offences are covered by mutual legal assistance mechanisms.*** As explained under several Recommendations above, including Special Recommendation II above and under deficiency 2) below, fundraising mechanisms as well as other offenses previously missing are now criminalized under the TA and amendment Acts, and therefore covered by the Mutual Assistance in Criminal Matters Act, which definition of a “criminal matter” refers to (a) an investigation into a matter certified by the Central Authority of the country to be a matter in respect of which there is reasonable cause to believe that an offence under the laws of that country has been committed and in respect of which criminal or forfeiture proceedings could be instituted in that country; or (b) proceedings certified by the Central Authority of the country to be criminal or forfeiture proceedings instituted in respect of an offence committed, or suspected on reasonable grounds to have been committed, against the laws of that country. **This matter (SR. V / Deficiency 1) that derives from the expressed in paragraph 670 of the MER, was addressed.**
- ii. **Deficiency 2) - *The terrorist financing offence of fund-raising is not an extraditable offence.*** With regard to this deficiency, as explained in the 9th Follow-Up Report, the TA has been amended in section 19 by the insertion of sub-section 3 which criminalizes the providing or collection of property for and on behalf of an individual terrorist or terrorist organization and intends that it should be used, or has reasonable cause to suspect that it may be used for the purposes of terrorism. The above provisions specifically only criminalize the provision/collection of funds intended or suspected to be used for terrorism and not all funds collected for or on behalf of an individual terrorist as required by the Recommendation. Section 9 of the TAA (No. 2) Act 35 of 2013 then amended subsection (3a) of section 19 of the TA by inserting paragraph (aa) which criminalizes the collecting, providing or attempts to collect or provide or make available any property whether directly or indirectly to any terrorist organization or any person who is concerned or connected with the financing of terrorism. This provision refers to terrorist organization and persons concerned or connected with the financing of terrorism and does not include individual terrorists. As such the recommendation was outstanding. However, authorities informed of a further amendment to the TA approved in November 2014, which would cover in section 19, the collection, provision of any property for or on behalf of an individual terrorist. **This deficiency (SR. V / Deficiency 2) was addressed.**

28. **General Conclusion for Special Recommendation V:** This Recommendation was solved since deficiencies in extradition primarily related to deficiencies under the TF Offense which were solved.

VI. OVERVIEW OF COMPLIANCE WITH OTHER RECOMMENDATIONS

Recommendation 6

29. This Recommendation was rated as NC. To cure deficiencies found, as discussed in the 9th Follow-Up Report, authorities included several provisions with regard to identification, due diligence and monitoring of PEPs in section 24(1) of the POCAMLTF Guidelines. This provisions referred to ensuring “a process of regular monitoring of the business relationship with a politically exposed person” and the examiner’s recommendation referred to “enhanced ongoing monitoring” rather than “regular monitoring”. Section 7 of POCAMLTF Guidelines 2013 further amended paragraph (d) of subsection (1) of section 24 of the POCAMLTF Guidelines by replacing “regular monitoring” with “enhanced ongoing monitoring” thereby closing most of the gaps on this Recommendation. Grenada is a member of the Organisation of American States Convention against Corruption. Cabinet in October 2013 approved Grenada’s accession to the UN Convention against Corruption and authorities indicated that administrative preparations were being made through the Ministry of Foreign Affairs for the ratification of the Convention. Ratification is still underway. Based on examiner’s recommendation for Grenada to become a Member of the UN Convention against Corruption, this Recommendation is still outstanding.

Recommendation 7

30. This Recommendation was also rated NC and compliance was improved through the POCAMLTF Guidelines as described in the 9th Follow-Up Report, specifically sections 37 and 38 which speak to the need of managerial approval for new correspondent banking relationships, among other measures.

Recommendation 8

31. This Recommendation was also rated as NC and the country met all the outstanding requirements for this Recommendation, based on what is requested by section 13 and 21 of the POCAMLTF Guidelines. Section 13 of the POCAMLTF Guidelines includes a requirement to have policies and procedures in place to prevent the misuse of technological developments for money laundering or terrorist financing. Requirements for dealing with non-face to face business relationships or transactions are set out in section 31 of the POCAMLTF Guidelines. There is no requirement for financial institutions to have policies to address specific risks associated with non-face to face business relationships and transactions. However, financial institutions are obliged to apply the provisions of the AMLTF Guidelines relating to identification and verification to non-face to face business relationships. Additionally, where identity is verified electronically or copies of documents are relied on in relation to a non face to face application for business, an entity or a professional shall apply an additional verification check, including the enhanced CDD measures, to manage the potential risk of identity fraud. The above measures already helped mitigate some of the risks associated with non-face to face relationships, though they did not comply with the examiners recommendation for financial institutions to have policies to address specific risks associated with non-face to face business relationships and transactions.

32. Section 9 of POCAMLTFA Guidelines 2013 amends section 31 of the POCAMLTFA Guidelines by inserting after subsection (4) a subsection (5), a requirement for entities and professionals to have specific written policies and procedures, including effective customer due diligence procedures, to address risks associated with non-face to face transactions.

Recommendation 9

33. This Recommendation was also rated as NC. Examiners made five (5) recommendations to aid in curing deficiencies identified. The first one had to do with the financial institutions being required to immediately obtain from introducers the necessary information concerning certain elements of the CDD Process (Criteria 5.3 to 5.6). In this sense, as described in the 9th Follow-Up Report, Regulation 7(1) of the AMLTFR requires the production by the introducer, of satisfactory evidence of the identity of the applicant for business. Measures for introduced business are set out in section 33 of the POCAMLTFA Guidelines, however there are no requirements for a financial institution to immediately obtain from the introducer the elements of the CDD process as set out in criteria 5.3 to 5.6. While the requirement of regulation 7(1) of the AMLTFR would entail information as to the name, address and legal status in the case of legal persons and arrangement, there is no need to obtain information on beneficial owners, the ownership and control structure and the purpose and intended nature of the business relationship. Section 10 of POCAMLTFA Guidelines 2013 however, amended section 33 of the POCAMLTFA Guidelines by inserting after subsection (2) a new subsection (2a) which requires an entity or professional to immediately obtain from an introducer elements of the CDD or enhanced CDD process undertaken for the introduced applicant. This measure was unfortunately not specific as to the elements of the CDD process that should be obtained which includes information on any beneficial owners, the ownership and control structure and the purpose and intended nature of the business relationship. Authorities indicated for this report that they are preparing a further amendment to section 33 of the POCAMLTFA Guidelines to ensure specific elements of CDD are set out.

34. Examiners also recommended that financial institutions be required to test agreements with third parties to ensure that CDD held satisfies the provisions of Recommendations 5 and 10. This testing should also confirm whether information can be provided by the third party without delay. Authorities referred to sub-regulations 7(4) and 7(5) of the AMLTFR which stipulates that satisfactory evidence of the identity of an applicant for business can be a written assurance from the introducer that evidence of the identity of the applicant has been obtained in accordance with identification procedures maintained by the introducer which comply with the measures equivalent to the AMLTFR and the POCAMLTFA Guidelines and that such evidence will be provided upon request. However, this provision did not have a requirement to test whether the written assurance is valid. Regulation 4 of the POCAMLTFA amended regulation 7 of the POCAMLTFR by inserting a sub-regulation (6) stating that nothing in the regulation limits the duty of the person carrying on the relevant business from testing the validity of the written assurance and satisfying himself that the CDD held by the introducer is in accordance with measures of the AMLTFR and the POCAMLTFA Guidelines and that such information can be provided without delay. This measure complied with the examiners' recommendation.

35. In a separate recommendation by examiners, financial institutions should be required to satisfy themselves that the third party is regulated and supervised in accordance with Recommendations 23, 24 and 29. Authorities referred to section 33 (3)(b) of the POCAMLTFA Guidelines which stipulates that financial institutions are exempted from verification of the identity of an applicant if the introducer is a regulated person, or a foreign regulated person

within the meaning of the AMLTFR. A regulated person as defined in the AMLTFR is a person who is licensed or registered to carry on a relevant business in or from within Grenada. A foreign regulated person is defined in the AMLTFR as an authority outside of Grenada which exercises supervisory functions that substantially correspond to the supervisory functions of the Anti-Money Laundering and Combating Terrorism Financing Commission. The above provision deals with exemption from verification of identity, but did not require financial institutions to be satisfied that third parties are regulated in accordance with FATF Recommendations 23, 24 and 29. Section 10 of POCAMLTF Guidelines 2013 amends section 33 of the POCAMLTF Guidelines by inserting after subsection (5) a new subsection (6) which stipulates that an entity or professional has the ultimate responsibility to be satisfied that third parties are regulated in accordance with FATF recommendations. This provision complied with the examiners' recommendation.

36. Examiners also requested that the competent authorities considered issuing a list of jurisdictions that adequately apply FATF Recommendations for third parties which may operate in foreign jurisdictions. Authorities embraced this recommendation and included Schedule II in the POCAMLTF Guidelines, to list recognized jurisdictions which apply or sufficiently apply the FATF Recommendations and whose anti-money laundering and terrorist financing laws are equivalent to the provisions of the AMLTFR and the AMLTF Guidelines. Section 54 of the POCAMLTF Guidelines outlined the circumstances under which the list may be used, but had no indication that financial institutions should use the list for third parties operating in foreign jurisdictions. Section 14 of POCAMLTF Guidelines 2013 amended section 54 of the POCAMLTF Guidelines by inserting subsection (4a) which stipulates that entities and professionals should use the list of jurisdictions listed in Schedule "2" to evaluate third parties operating in foreign jurisdictions. Consequently this recommendation was met (though Schedule was listed as "II" and not "2").

37. Finally, examiners recommended an amendment to legislation or guidance to stipulate that the verification and identification of a client remains the responsibility of the financial institution, regardless of whether or otherwise it has relied on a third party to conduct the verification and identification of the client is still outstanding. To that effect, section (iv) of the Explanation of section 33 of the POCAMLTF Guidelines places the ultimate responsibility for the establishing and reviewing CDD on the applicant or customer with the entity or professional. However as indicated in subsection 2(2) of the POCAMLTF Guidelines, Explanations are provided to serve as a guide and to afford clarity in better understanding the sections of the POCAMLTF Guidelines. This suggests that requirements placed in the Explanations are not legally enforceable and therefore cannot be considered mandatory. Consequently, this measure did not comply with the examiners' recommendations.

Recommendation 10

38. This Recommendation was rated as LC and as described in the 8th Follow-Up Report, the only deficiency to do with the need to amend legislation to require financial institutions to maintain records of account files and business correspondence for a period of at least five years after the completion of a business relationship, was cured through a modification to section 47 (1) and (2) of the POCAMLTF Guidelines which requires business and professionals to do so.

Recommendation 11

39. With regard to Recommendation 11 which was rated as NC, authorities included the requirement for financial institutions to examine the background and purpose of all complex, unusual large transactions or unusual patterns of transactions for no less than five years, as well

POST-PLENARY FINAL

as to retain the findings from the review of these types of transactions in the AMLTF Guidelines, which were not considered other enforceable means, specifically sections 15 (2) (h) and 15 (2) (i). This was indicated since the 4th Follow-Up Report. Time after, these guidelines were approved by the House of Representatives and issued in February 2012, containing section 15 requirements. Therefore, examiners recommendations for this Recommendation were met.

Recommendations 12, 16 and 24

40. With regard to these Recommendations which were all rated NC, one of the most important deficiencies solved, was the designation of a competent authority with the responsibility of monitoring and ensuring compliance of the DNFBPs with AML/CFT Requirements. This was included in section 3 of the POCAMLTF Guidelines 2013 which amended the previous section 9 of the POCAMLTF Guidelines to require AMLTF Commission to monitor compliance by an entity, professional or person who is subject to the Guidelines with all ML/TF enactments and Guidelines. Deficiencies identified for financial institutions with regard to Recs. 5, 6, 8 to 11, as well as 13-15 and 21, are also applicable to DNFBPs, and as explained in the 9th Follow-Up Report, the requirements of the AMLTFR and the POCAMLTF Guidelines are applicable to all persons who conduct “relevant business” which has been defined in the AMLTFR to include all the DNFBPs and their activities in accordance with FATF standards. Then, the analysis in relation to the provisions of the AMLTFR and the POCAMLTF Guidelines under the relevant sections of this report dealing with Recs. 5, 6, 8, 9, 11, 13-15 and 21, are also applicable to the DNFBPs. Authorities also advised that they submitted their training needs to the CFATF, as regards to DNFBPs.

Recommendation 14

41. Recommendation 14 was rated as PC and examiners had recommended that the POCA, 2003 was amended to extend the tipping off offence to include disclosure of the fact that a STR concerning *money laundering* is being reported or provided by the FIU. As explained in the 5th Follow-Up Report, subsection 39 (2) of POCA makes it an offence for a person who knows or suspects that a disclosure is being or has been made to the Financial Intelligence Unit under section 34, 35 or 38, discloses to any other person information or any other matter concerning the matter. Sections 34, 35 and 38 of the POCA stipulate the reporting obligations for suspicious transactions reporting related to money laundering and proceeds of criminal conduct. This Recommendation was closed.

Recommendation 15

42. With regard to this Recommendation, which has significant progress though not fully complied with, examiners requested that all financial institutions be required to establish and maintain internal procedures, policies and controls to prevent money laundering and financing of terrorism. As explained in the 9th Follow-Up Report, Regulation 3 of the AMLTFR requires relevant persons, i.e. financial institutions and DNFBPs to maintain identification, record keeping and internal reporting procedures in accordance with regulations of the AMLTFR and internal controls and communication procedures which are appropriate for the purposes of forestalling and preventing money laundering. Internal controls and communication procedures were therefore limited to money laundering and did not include terrorist financing. This requirement however, was then further elaborated in section 12 of the POCAMLTF Guidelines where an entity or a professional is required to maintain a system of internal controls which provides appropriate policies, processes and procedures for forestalling, and preventing money laundering and terrorist

POST-PLENARY FINAL

financing. As stated, this requirement includes terrorist financing, and given the enforceable status of the POCAMLTF Guidelines it meets the requirements for compliance with FATF standards. Consequently this recommendation was met. Also, regulation 13 of the AMLTFR requires relevant persons to appoint a Money Laundering Reporting Officer (MLRO) responsible for ensuring compliance by staff with legal AML/CFT requirements including guidelines. While there are provisions detailing qualifications for the appointment of a MLRO there is no requirement that the appointment should be at a management level. However, it is noted that subsection 12(3)(c) of the POCAMLTF Guidelines stipulates that an entity's or professional's written system of internal controls should include the designation of an individual or individuals at the level of the entity's or professional's senior management who is responsible for managing anti-money laundering and terrorist financing compliance. This requirement complies with the examiners' recommendation.

43. Examiners also recommended that the requirement for AML/CFT compliance officer and other appropriate staff to have timely access to customer identification data and other CDD information, etc., should be enforceable. To this effect, Sub regulation 13(2) (b) provides for the MLRO to have access to all relevant information to enable him to perform the functions given to him under the Guidelines and the AMLTFR. This provision limits access only to the MLRO and does not include other appropriate staff in accordance with the examiners' recommendation. However, authorities advised that an appropriate further amendment to sub-regulation (2) of Regulation 13 was submitted and approved by Cabinet on 27th of October, 2014. The amendment refers to the MLRO and other appropriate staff having access to all relevant information and material to perform its functions given under the Guidelines and Regulations. Provisions fully meet the recommendation.

44. Examiners also suggested that financial institutions be required to maintain an adequately resourced and independent audit function to test compliance with the procedures, policies and controls. Section 12(4) of the POCAMLTF Guidelines requires entities and professionals to establish and maintain an independent audit function that is adequately resourced to test compliance, including sample testing with the written system of internal controls and other provisions of the AMLTFR and the POCAMLTF Guidelines. This measure complies with the recommendation. Among other examiner's recommendations, financial institutions were also required to train all staff on an ongoing and regular basis to ensure that employees are aware of money laundering and terrorist financing mechanisms, as well as the requirements of anti-money laundering and counter-terrorist financing laws and their obligations under these laws. In this sense, Regulation 16 of the AMLTFR requires relevant persons i.e. financial institutions and DNFBPs to provide training at least once a year to all directors, management and key staff to ensure that they are aware of the AML/CFT legal requirements in the POCA, the TA, the POCAMLTF Guidelines and any other AML/CFT enactments, the relevant regional and international conventions and standards of compliance, the relevant person's manual of compliance procedures or internal controls systems, their personal and the relevant person's obligations. This provision fully complies with the examiners' recommendation.

45. Finally, there was a need for a requirement for financial institution to put in place screening procedures to ensure high standards when hiring employees be enforceable. Section 51 of the POCAMLTF Guidelines requires an entity or professional to assess the competence and probity of its or his employees at the time of their recruitment and at any subsequent change in role and subject their competence and probity to ongoing monitoring. This measure fully complies with the recommendation.

Recommendation 17

POST-PLENARY FINAL

46. The examiner's recommendation for the authorities to amend the POCA and the Money Laundering (Prevention) Act (MLPA) to ensure sanctions were consistent and broad in range continues to be addressed, for instance, administrative penalties for specific breaches by corporate entities have been further increased, as included in draft legislation approved on November 13th 2014. Sanctions range from EC\$ 70,000 to EC\$ 250,000.

Recommendation 18

47. This Recommendation was rated as NC and level of compliance is expected to be increased, as described in the 9th Follow-Up Report and here. The only measure outstanding was that legislation pertaining Offshore Banks contained, among others that an entity licensed under such Act, was to have its mind and management within Grenada.

48. A draft amendment expected to be approved November 13th, 2014 was prepared to that effect. With regard to other deficiencies, sections 3 and 4 of the Banking (Amendment) Act, 2013 enacted in October 2013 amends sections 2 and 5 of the Banking Act to prohibit the granting of a license to a shell bank. Similarly sections 3 and 4 of the Offshore Banking (Amendment) Act 2013 enacted in October 2013 amends sections 2 and 13 of the Offshore Banking Act to also prohibit the granting of a license to a shell bank. Also, subsection 36(1)(a)(i) of the POCAMLTF Guidelines requires that an entity shall not enter into or maintain a correspondent relationship with a shell bank. Finally, subsection 37(1)(a) of the POCAMLTF Guidelines requires that a bank should not enter into or maintain a relationship with a respondent bank that provides correspondent banking services to a shell bank. It is noted that the requirement is only applicable to banks while the examiners' recommendation stipulates financial institution. Section 12 of POCAMLFTA Guidelines 2013 amended section 37 of the POCAMLTF Guidelines by inserting the words "or financial institution" after wherever the word "bank" occurs in the section. This extends the requirement to all financial institutions as required by the recommendation.

Recommendations 19

49. With regard to this Recommendation rated NC in the MER, its single deficiency was cured, given that competent authorities were advised to consider the feasibility and utility of implementing a system where financial institutions report transactions in currency above a prescribed threshold to a centralised national authority. As reported in the 9th Follow-Up Report, on July 4 2011, Cabinet directed that the FIU be designated as the authority to which every financial institution will be required to report all currency transactions above the threshold of EC\$50,000. Section 5 of the POCAMLTF Guidelines 2013 amends subsection (7) of section 20 of the POCAMLTF Guidelines requiring all employees to report all transactions of EC\$50,000 and above or equivalent to the financial institution's Reporting Officer who is then required to report the transactions to the FIU.

Recommendation 20

50. With regard to this Recommendation rated PC, examiners indicated that they were unable to assess whether consideration was given to apply FATF Recommendations to non-financial businesses and professions other than DNFBPs and as explained in the 5th Follow-Up Report, the AMLTFR and the AMLTF Guidelines are applicable to all persons who conduct "relevant business" which has been defined in the AMLTFR to include all DNFBPs and their activities, in accordance with FATF Standards, including the buying and selling of cars, which

POST-PLENARY FINAL

demonstrates that authorities considered extending implementation of FATF Standards beyond DNFBPs. This Recommendation was closed.

Recommendation 21

51. This Recommendation was rated NC and level of compliance has increased significantly. To cure the deficiencies, Examiners made four (4) recommendations all of which were met. First recommendation has to do with imposing mandatory requirements to pay special attention to business relationships and transactions with persons from or in countries which do not or insufficiently apply FATF Recommendations. Subsection 54(1) of the POCAMLTF Guidelines requires every entity and professional to pay special attention to a business relationship and transaction that relates to a person from a jurisdiction which the AMLTF Commission considers does not apply or insufficiently applies the FATF Recommendations with respect to money laundering and terrorist financing. The AMLTF Commission provides a list of countries which it recognizes as applying the FATF Recommendations in Schedule 2 of the POCAMLTF Guidelines. It is therefore assumed that countries not listed in Schedule 2 will be covered by the requirement of section 54(1) of the POCAMLTF Guidelines.

52. Examiners also suggested that effective measures be put in place to ensure that financial institutions are advised of concerns about the weaknesses in the AML/CFT systems of other countries. To that effect, Subsection 54(5) of the POCAMLTF Guidelines provides for the AMLTF Commission to issue from time to time advisory warnings to entities and professionals advising about the weaknesses in the anti-money laundering and terrorist financing systems of other jurisdictions. The FATF Public Statements in February and June 2013 were forwarded to the Ministry of Finance and GARFIN. The statements were placed on the Ministry of Finance website and e-mailed to the banks and some other companies/institutions/professionals while GARFIN emailed the statements to all non-financial institutions which it regulates. No information as to the continuing compliance with the recommendation with regard to advising of FATF and CFATF Public Statements to financial institutions was provided for the 9th Follow-Up Report, however, authorities indicated that after the November 2014 CFATF Public Statement, several actions including the approval by Cabinet of countermeasures by the AML/CTF Commission against Guyana and the dissemination of advisories to all Media houses including radio and television stations, sent to all Banks, Credit Unions, sent to GARFIN and the FIU for further dissemination, among other actions. Authorities advised that these actions and advisory by the AML/CTF Commission remain in force unless otherwise advised by CFATF on sufficient progress made by Guyana.

53. Examiners also emphasized the need for financial institutions being required to examine transactions with no apparent economic or visible lawful purpose from countries which do not or insufficiently apply the FATF Recommendations and make written findings of such available to assist competent authorities. In this sense, section 4 of POCAMLTF Guidelines 2013 inserts sub-paragraph (ha) in subsection (2) of section 15 of the POCAMLTF Guidelines requiring an entity or professional to examine transactions with no apparent economic or visible lawful purpose including the background and purpose of such transactions from countries which do not or insufficiently apply the FATF Recommendations and make written findings of such available to assist competent authorities. The measure complies with the examiners' recommendation.

54. Finally, examiners indicated authorities in Grenada should be empowered to apply appropriate counter-measures where a country continues not to apply or insufficiently apply the FATF Recommendations. Regulation 7 of POCAMLTFAR amends Regulation 15 of the POCAMLTFR by inserting 15A which provides for competent authorities to direct entities and

POST-PLENARY FINAL

professionals to institute a range of counter-measures against persons from countries which continue not to apply or insufficiently apply the FATF Recommendations. The competent authorities include the FIU, GARFIN and the AMLCTF Commission. This provision complies with the recommendation.

Recommendation 22

55. This Recommendation was rated as NC and all deficiencies were cured as advanced by the 9th Follow up Report. This was done primarily through Subsection 55(1 -3 and 5). Subsection 55 (1) of the AMLTF Guidelines requires an entity regulated in Grenada to ensure that its branches, subsidiaries or representative offices operating in foreign jurisdictions observe standards at least equivalent to those of the AMLTFR and the POCAMLTF Guidelines. This specific requirement did not include the FATF Recommendations as set out in the examiners' recommendation, however, section 15 of POCAMLTF Guidelines 2013 amended subsection (2) of section 55 of the POCAMLTF Guidelines by inserting a clause to extend the above requirements to include the FATF Recommendations. Entities were also required to ensure that their branches and subsidiaries or representative offices observe higher standards where the established standards of compliance under Grenada laws, rules or policies differ from those of the jurisdictions where they are located. They are also required to notify the FIU and the AMLTF Commission in writing if any of its branches, subsidiaries or representative offices operating in foreign jurisdictions is unable to observe appropriate anti-money laundering and terrorist financing measures because such observance is prohibited by the laws, policies or other measures of the foreign jurisdiction. This measure complies with the recommendation.

Recommendation 25

56. This Recommendation was rated PC and as described in the 5th Follow-Up Report, examiners made two (2) recommendations to cure deficiencies which were fully implemented: 1) to provide financial institutions and DNFBPs with feedback on suspicious transaction reports filed, and 2) to include specific instructions related to the requirements for combating the financing of terrorism, all of which was done under subsections 6 (2) (d) of the FIUA 2012, on FIU's faculty to provide feedback and through the AMLTF Guidelines that in fact help in the interpreting, understanding and application of requirements. Authorities also indicated that they had periodic meetings with financial institutions and DNFBPs, as well as NPOs for awareness, in several sections of the matrix presented for this report. Authorities also indicate they hold monthly meetings on SARs reported, face to face, to provide feedback on the progress of its investigation.

Recommendation 26

57. This Recommendation was rated LC and as described in the 8th Follow-Up Report, examiners made five (5) recommendations to cure deficiencies all of which were fully implemented, basically: 1) appointment of FIU Director, 2) there should be specific grounds for removal of FIU Director, 3) FIU and Supervisory Authority to consider undertaking education drive to inform reporting parties and general public of typologies, trends and other AML/CFT matters, 4) typologies and trends analysis to be included in Annual FIU Report and 5) to review analysts and investigators processes to reduce ambiguity, as well as sourcing specialized training. Among others, authorities launched advisories via radio and television informing general public of a new trend in the country which has the potential to cause major financial loss to citizens, on their accounts being misused for criminal purposes. Apart from specific training targeted for special groups the FIU continues to update its website (<http://www.grenadafiu.com>) with useful information.

Recommendation 30

58. This Recommendation was rated PC. To cure the deficiencies, authorities made structural and staffing changes. Authorities indicated that during 2012 and 2013 the FIU received technical and financial support from the governments of the United States and the United Kingdom through their regional embassies and also from the Eastern Caribbean Financial investigative Advisory Team (ECFIAT), though no specific details were provided. Also, with regard to police forces, as noted in the 9th Follow-Up Report and in a previous report, various processes and procedures apply, such as an initial vetting and screening process, required adherence to a Code of Conduct and provisions of the Police Act and the existence of formal discipline procedures for breaches. With regard to training in the Office of the Director of Public Prosecutions (ODPP) as well as the Royal Grenadian Police Force (RGPF) be reviewed. authorities advised that the RGPF sent one (1) officer to each of the following; a sub-regional workshop on cybersecurity from November 11 – 13 2013 in Uruguay, the Commonwealth project on capacity building in combating terrorism, counter terrorism national training program, the capacity building training course for state parties in the Caribbean sub-region on October 14 – 18, 2013 and the CFATF assessor training workshop in Jamaica in January 2014. The ODPP received during the period January to July, 2014 as follows: Local training – Proceeds of Crime workshop held, January 24, in which three (3) persons attended. US Embassy first multi-lateral maritime interdiction to prosecution summit held 25-26 February, 2014 – Florida, USA in which one (1) person attended; Proceeds of Crime Workshop held in Dominica, April 9-10 in which one person attended. During the period February to July 2014 officers of the RGPF also attended the following training:- Annual Caribbean Regional Drug commanders training conference held in the Dominican Republic – 4-6 March 2014 in which two officers attended; Professional retraining of canine handlers and specialist training of dogs to search and detect explosive weapons and ammunition held in Russia from May 20 to 26th September, 2014 in which one (1) officer attended; 31st Annual International Drug Conference held in Italy during the period 17 June-19 June, 2014, in which one person attended; Drug Intelligence Seminar for the Caribbean held 28-31 July, 2014 in Trinidad, which provided first-hand knowledge of Drug Trafficking trends, to which one (1) person also attended. Authorities were also to consider additional resources or staff for the Attorney General's Office, however, they advised that the Attorney General's Office is adequately staffed and executes its responsibilities to all Government ministries, agencies and departments in a timely manner.

Recommendation 31

59. This Recommendation was rated PC. Among others, it was said that the supervisory Authority should be given the legal authority to bring together the various authorities on a regular basis to develop and implement policies and strategies to tackle ML and TF. The provision of public education on issues of ML and TF should be added to their responsibilities. In this regard, as greatly discussed on the 9th Follow-Up Report, section 33 of POCA 2012 creates a Joint Anti-Money Laundering and Terrorist Financing Advisory Committee (the Committee) which shall have not less than seven persons and not more than fourteen who shall have the responsibility for making recommendations to the Anti-Money Laundering and Combating Terrorism Financing Commission (Formerly known as the Supervisory Authority in the previous act POCA 2003 now repealed), on initiatives for the prevention and detection of ML/TF activities. Section 63 of POCA 2012 creates the Anti-Money Laundering and Combating Terrorism Financing Commission (the Commission) whose members consist of:

- a. The Attorney General
- b. The Permanent Secretary Ministry of Finance

POST-PLENARY FINAL

- c. The Director of Public Prosecutions
- d. The Permanent Secretary of the Ministry responsible for the Police
- e. The Commissioner of Police
- f. The Chairman of the Grenada Authority for the Regulation of Financial Institutions
- g. The Comptroller of Customs
- h. The National Security Advisor
- i. In addition to the above, the Commission will also include such other persons as the Minister may from time to time appoint.

60. A chairman will be appointed by the Minister from any of the members of the Commission. The main functions of the Commission will comprise of advising the Minister of Finance in relation to the detection and prevention of money laundering in Grenada, issuing guidance as to compliance with the POCA 2012 and attendant regulations, advising the Minister of Finance as to the participation of Grenada in the international effort against money laundering. It is noted that while the activities of the Committee include terrorist financing, those of the Commission do not. Section 63 (1) of POCA 2012 was therefore amended by the Proceeds of Crime (Amendment) Act 2013, by the insertion of a new paragraph requiring the Commission to conduct public education on issues of money laundering and terrorism financing. Section 5 of the POCAA No. 2, 2013 enacted in December 2013 amends sub-paragraphs (a) and (c) of subsection (1) of section 63 of POCA to extend the functions of the Commission to include terrorist financing. While the above provision would result in full compliance with the examiners' recommendation, information on the activities of both the Commission and the Committee should be submitted to demonstrate continuing compliance.

61. In addition to the above, the authorities have advised that Cabinet approved a technical working group on AML/CFT issues consisting of senior public sector officials knowledgeable in ML/TF matters from the RGPF, Customs, Airport Authority, Inland Revenue Department, ODPP and the FIU. The aim of the group is to foster a strong AML/CFT regime through co-operation between domestic, law enforcement and regulatory authorities and to collectively provide an effective mechanism for dialogue on matters pertaining to the forestalling, detection and prevention of ML/TF and proliferation of drugs. A MOU was signed by all parties in March 2014.

Recommendation 32

62. Recommendation 32 was also rated PC. Four (4) deficiencies were identified and a number of recommendations were made, all of which were largely put into place. Among others, there was a request for the Supervisory Authority to establish a secretariat to monitor the implementation of Grenada's AML/CFT regime. Authorities advised in the 9th Follow-Up Report and previous reports that the Secretariat was established. The Executive Director was appointed on January 2, 2013 within the Office of AML/CFT Commission. The unit is under the Attorney General's Office Oversight and is being serviced by two (2) legal officers and one (1) administrative officer, apart from the Executive Director. Plans to build capacity in terms of staffing were to be phased in as work intensified.

POST-PLENARY FINAL

63. With regard to the maintenance of statistics on spontaneous referrals made by the FIU, the authorities advised that to July 2014 the FIU made four (4) requests for information, two received (2) and two (2) completed. None were pending. Twenty nine (29) international requests for information were received during the period. Eighteen (18) were completed and eleven (11) were pending. The FIU received seventy five (75) suspicious activity reports from August 2013 to July 2014. Authorities indicated that no ML convictions derived from reports received during this period however, the FIU recorded a total of nineteen (19) convictions for the entire 2013 year, with EC\$90,000 fines. EC\$24,000.00 were confiscated and a total of EC\$18,890.64 in cash were forfeited. Other types of assets (land and maritime vehicles) were also restrained. The above demonstrates maintenance of statistics by the FIU.

64. With regard to the maintenance of comprehensive statistics on mutual legal assistance (MLA) and extradition requests, there were no extradition requests during the period February 2014 to July 2014 and (1) MLA request received, which is still pending. Authorities were able to provide information on the country, predicate offense and nature of the request. As such this recommendation was met.

65. With regard to comprehensive statistics on all aspects of the operations of Customs and Excise, the authorities advised that for the period August 2013 to January 2014, there were no cash seizures, to July 2014, this slightly changed (see paragraph 61 above).

Recommendation 33

66. With regard to this Recommendation rated NC, some of the deficiencies are still outstanding as noted in previous follow-up reports and some were solved. The first recommendation requires that appropriate measures be taken to ensure that bearer shares issued under the International Companies Act (ICA) are not misused for money laundering. The authorities have cited section 3 of the International Companies (Amendment) (No. 2) Act, 2013 enacted in November 2013 which inserts section 27B after section 27 of the ICA. Section 27B prohibits bearer share agents from using bearer shares issued under the ICA for the purpose of money laundering and terrorist financing. This provision, while criminalizing the misuse of bearer shares issued under the ICA for ML and TF, does not impose measures to prevent the misuse. The most effective measure is to require the immobilization of the bearer shares by obligating the bearer share agents to maintain custody of the bearer shares and also retain current information on the identity of the owners. Given the above, this recommendation remains outstanding.

67. With regard to the recommendation that there should be statutory requirements for the provision of information on the beneficial ownership of companies, the authorities advised that section 3 of the Companies (Amendment) Act 2014 enacted in December 2013 amends section 344 of the Companies Act to require the provision of ownership information on a company to the Office of the Registrar of Companies and Intellectual Property. However, the examiners' recommendation was specific that the information should be beneficial ownership information and not just ownership information. The Companies (Amendment) Act 23 No. 2 of 2014, approved in June 2014, further amended the Companies Act to clarify that information to be provided should be "beneficial" ownership information. Therefore, this recommendation was met.

68. The authorities advised in a previous follow-up report in relation to the recommendation that adequate resources should be delegated to the functions of the Registrar of Companies and Intellectual Property, that the Registrar is adequately staffed with ten (10) officers. This is a definite improvement from the time of the mutual evaluation when only one

POST-PLenary FINAL

(1) clerk was assigned to deal with company incorporations. Presently, the process of automation of companies' names is continuing to allow for the sharing of information with various government bodies. The Office of the Registrar of Companies and Intellectual Property also deals with trademarks, patents, registration of companies and business names. Amendments were made to the Company Regulations and enactments with regard to companies during 2011. The above measures should enhance the functions of the Registrar of Companies and Intellectual Property. The number of companies incorporated in 2011 and 2012 were one hundred and thirty-five (135) and one hundred and twenty-three (123) respectively and the length of time to incorporate a company was approximately three (3) days. At present, the authorities advise that one hundred and sixty-four (164) companies were incorporated during the period August to January 2014. Solely from February to July 2014, eighty six (86) more companies registered. These figures would suggest that the resources are adequate for the functions of the Registrar. Hence this recommendation was met.

69. With respect to the recommendation that a mechanism be developed to ensure the timely filing of annual returns as well as the timely access by competent authorities and other relevant parties to the current information on companies' beneficial ownership, the authorities advised in the 8th Follow-Up Report that compliance Letters were sent to law firms from the Registrar of Companies (dated 2/12/11) pointing out the inefficiencies as regards to the filing of annual returns on behalf of companies which they represent and the risk of being struck off the register pursuant to SRO 5 of 2009.

70. The second step taken with regard to this matter, was in the form of a notice to Company Directors reminding them of their statutory obligations to file Annual Returns in accordance with the Companies Act, was placed in the Government Gazette on January 10, 2014. The Registrar of Companies advised that letters to companies as a follow-up would be sent before any further action is taken. The Registrar of Companies has advised that the response to the notice in the Government Gazette has been positive. The process of sending individual letter to companies who have not filed Annual Returns is ongoing. Companies are filing their returns while others have been writing to inform that the said companies are no longer in business. Information as to whether there has been any imposition of sanctions for non-filing should be submitted to demonstrate effectiveness. While the above measures should improve timely filing of annual returns, the recommendation also requires measures for ensuring timely access by competent authorities and other relevant parties to the current information on companies' beneficial ownership. As explained above, "beneficial ownership" is covered in the most recent reform to the Companies Act. Hence this recommendation was partially covered, only pending to ensure timely access to such information. Authorities indicated that the Registrar of Companies has advised that according to legislation, Gazetted notices should be published for ninety (90) days before any further action is taken. Even though efforts have been made by companies to respond to the Gazetted notice, there still a need to address both dormant and active companies that are tardy in the filing of their annual returns. The Registrar has advised that is currently in the process of rethinking and restructuring a more aggressive policy to address this matter.

71. The last recommendation requiring legislative amendments to require the timely notification of any changes in the beneficial ownership of companies along with changes to other particulars is met. Section 3 of the Companies (Amendment) Act 2014 enacted in December 2013 amends section 344 of the Companies Act to require the submission of an annual update on the ownership information of an external company to the Registrar of Companies and Intellectual Property. The above provision is limited to external companies and ownership information rather than changes in beneficial ownership of all companies. The Companies (Amendment) Act 23 No. 2 of 2014, approved in June 2014, further amended the Companies Act to clarify that information to be provided should be "beneficial" ownership information.

Recommendation 34

72. This Recommendation was rated NC and the examiner made two recommendations to cure deficiencies which are still outstanding. With regard to the recommendation for the authorities to put in place measures for the registration and monitoring of local trusts in accordance with FATF requirements, the authorities had advised that a National Registry and a Registrar of Companies was appointed under the Companies Act. However, no information as to the exact functions of the National Registry or the Registrar of Companies in relation to local trusts under the Companies Act was provided. Additionally, the authorities advised that section 17 of the International Trusts Act 1996 provides for the registration and monitoring of local trusts. However, section 17 refers specifically to international trusts rather than local trusts. The authorities have referred to section 30 of the POCAMLTF Guidelines requiring the identification and verification of the trustee, settlor or protector of a trust by an entity or professional. However, the recommendation refers specifically to the registration and monitoring of trusts while section 30 deals with trusts establishing business relationships with financial institutions. This recommendation was outstanding, however through a further amendment to the Companies Act approved on November 13th 2014, the Attorney General's Office or Officer appointed by this Office would be in charge of monitoring (i.e. monitoring compliance with registration requirements and undertaking periodic reviews to identify ML/TF risks) trusts formed or otherwise established in Grenada (though it was clarified at time of mutual evaluation and at present, no trusts companies exist in Grenada) or being administered in or from Grenada and the Registrar of Companies of registering. Information required by Registrar includes information on the settler, trustee (s), beneficiary or beneficiaries and any other the information the Registrar may require, it also requires presenting a copy of the certificate creating the trust and stating the purpose for which the trust was established.

73. With regard to the recommendation that the authorities should consider including adequate and accurate information on the beneficial ownership and control of trusts as part of the registration process for local trusts, the authorities advise that section 30 of the POCAMLTF Guidelines provides for the identification and verification of the trustee, settlor or protector of the trust. However, the above measure is applicable to financial institutions and DNFBPs when establishing or providing trust services and do not address the requirement of the examiners' recommendation as part of the registration process for local trusts. The authorities advised in the 9th follow-up report that the recommendation was being reviewed and as explained above, has been addressed to a great extent.

Recommendation 40

74. Recommendation 40 was rated LC, nevertheless, the country continued implementing measures to achieve full compliance with this Recommendation. Only recommendation made by examiners with regard to this Recommendation was that "consideration should be given to making amendments to the Financial Intelligence Unit Act (FIUA) and the Exchange of Information Act (EIA) to state specifically that requests should be refused on the sole ground that the request pertains to fiscal matters. Both amendments were made as requested (FIUA section 33A through Act No 27, 2013 and EIA by Act No. 30 of 2014, section 3).

Special Recommendation VI

75. This Recommendation was rated NC. As reported in previous follow-up reports, all examiners recommendations to cure deficiencies with this Recommendation, except for the recommendation requiring money value transfer service operators to maintain a current list of their agents which has to be verified, were complied with substantially: 1) legislation for money

POST-PLENARY FINAL

services providers was enacted (Money Services Business Act No. 10 of 2009), 2) a system comprising quarterly reports, off-site and on-site supervision was established by GARFIN as the supervisory authority to monitor compliance, 3) proportionate and dissuasive sanctions were contemplated for non-compliance with the Money Services Business Act (section 46).

Special Recommendation VII

76. Special Recommendation VII was rated NC and despite having significant progress, remains outstanding. Examiners' recommendation required the implementation of enforceable measures in accordance with the requirements of SR. VII and the establishment of a regime to effectively monitor the compliance of financial institutions. Assessment of compliance with this recommendation in the 8th and 9th Follow-Up Reports was based on a consideration of the deficiencies identified in the rating factors for Special recommendation VII as follows:

***Rating Def** - No requirement for ordering financial institutions to obtain and maintain full originator information for all wire transfers of US\$1,000 and above*

***Rating Def** - No requirement for ordering financial institutions to include full originator information along with cross-border and domestic wire transfers*

***Rating Def** - No requirement for intermediary and beneficiary financial institutions in the payment chain to ensure that all originator information that accompanies a wire transfer is transmitted with the wire transfer.*

***Rating Def** - No requirement for beneficiary financial institutions to adopt effective risk-based procedures for identifying and handling wire transfers that are not accompanied by complete originator information.*

77. Measures in the POCAMLTFA Guidelines addressed completely three of the deficiencies listed above. The outstanding deficiency was no requirement for beneficiary financial institutions to adopt effective risk-based procedures for identifying and handling wire transfers that are not accompanied by complete originator information. Section 13 of POCAMLTFA Guidelines 2013 amended section 42 of the POCAMLTFA Guidelines by repealing subsection (5) and replacing it with a provision requiring a payment service provider of a payee to adopt effective risk-based measures for identifying and handling all transfer of funds that are not accompanied by complete originator information. This measure fully addresses the above deficiency. The above provision improves the level of compliance with this Recommendation. The main outstanding requirement then is, the establishment of a regime to effectively monitor the compliance of the financial institutions with the above measures. As such, this recommendation remains partially outstanding.

Special Recommendation VIII

78. This Recommendation was rated NC. As indicated in the 8th Follow-Up Report, the recommendation for the mandatory registration of non-profit organizations (NPOs) was outstanding. Sections 326-327 of the Companies Act allowed for the incorporation of NPOs, but was not mandatory. Additionally, the approval of the Attorney General is essential only to determine whether the company qualifies for the status of a non-profit company. Section 3 of the Companies (Amendment) Act, 2013 which was enacted in November 2013 amended section 328 of the Companies Act by inserting subsection (4a) requiring non-profit companies to be registered in accordance with the provisions of the Companies Act. This measure as described in the 9th Follow-Up Report, complied with the examiners' recommendation.

POST-PLENARY FINAL

79. Other recommendations include a review of the adequacy of laws governing NPOs, outreach to the NPO sector, an effective NPO supervisory regime, record keeping and retention requirements and development of investigative expertise in NPOs. In relation to a review of the adequacy of the laws and outreach to the NPO sector, the authorities advise that under section 5 of the POCAMLTF Guidelines, provisions for the establishment of internal control systems, customer due diligence measures, maintaining record keeping requirements and providing employee training are also applicable to charities and NPOs. Furthermore, Schedule I of the POCAMLTF Guidelines details best practices which charities and NPOs are also required to implement. Additionally, educational sessions were conducted by the AML/CFT Commission during the fourth quarter of 2013. In November 2013, a forum targeted at churches was held with seventy (70) persons attending. Emphasis was placed on compliance with AML/CFT Guidelines, sensitization on the vulnerability of churches to ML/TF and education on new ML/TF trends and typologies. The imposition of AML/CFT requirements on NPOs would suggest some review of the adequacy of the laws. The holding of the forum is in accordance with outreach to the NPO sector. The above are in compliance with the examiners' recommendations. There is need to submit in future reports information on continued compliance with the recommendation for outreach to the NPO sector.

80. With regard to the recommendations for an effective NPO supervisory regime, record keeping and retention requirements, the authorities indicate that subsection 10 (2) of the POCAMLTF Guidelines stipulates that the Commission as part of its prudential inspection of an entity that it regulates which includes entities that are not regulated by GARFIN including charities and NPOs must assess the AML/CFT systems for compliance with applicable laws, regulations and guidelines. While this provision designates the Commission with the responsibility for checking compliance with AML/CFT legal requirements, reference to the Commission's prudential inspections suggests that the Commission also has prudential responsibilities. However, there is no provision in the POCA which establishes the Commission, granting such responsibilities to the Commission. While the above measure establishes a legal framework for a supervisory regime, information has to be presented to demonstrate the operation of an effective NPO supervisory regime. The authorities have advised that the NPO sector will be regulated before the end of 2014.

81. With regard to record keeping and retention requirements, as already noted section 5 of the POCAMLTF Guidelines effectively requires NPOs to comply with the record keeping obligations of the Guidelines which are set out Part VI of the POCAMLTF Guidelines. These requirements comply with the FATF standards.

82. Additionally, for this 10th Follow-Up Report, authorities indicated that sections 337 A to 337 H of the Companies Act (done by Act No. 23 of 2014) contributes to effective monitoring and supervision of NPOs, as it provides the Attorney General with the right to inquire into NPOS, call for documents, search records, order an audit, among others. Section 337 I of the said Act also refers to the ability to issue Regulations regarding Non-Profit Companies.

83. The recommendation for the development of investigative expertise in NPOs remains outstanding (no information presented on the matter). Given the above four (4) recommendations have been met, one (1) has been partially met and one (1) remains outstanding.

Special Recommendation IX

84. As noted in previous follow-up reports, specially the 4th Follow-Up Report, there has been substantive implementation of the examiners' recommendations, though not all measures were implemented. This has included the implementation of a declaration system with a

POST-PLENARY FINAL

threshold of US \$10,000 at Maurice Bishop International Airport and ION scanners capable of detecting whether an individual was in contact with drugs, at the same airport. Country was also in the process (is still in the process) of sourcing trained dogs to build a canine unit; training was received in Russia from May 20 to 26th September, 2014.

85. Authorities also indicated that there is high degree of cooperation between the different agencies including customs, FIU, Immigration, the Drug Squad and the ODPP in ML/TF matters. For example, customs is part of the National Security Committee and two (2) customs officers have been involved in joint investigations with the FIU.

86. Authorities advised in relation to the recommendation for customs official to be trained in the use of passenger screening systems to analyse behaviour, appearance and communication style of potential currency carriers that one officer attended a cash courier workshop hosted by the United Nations Office on Drug and Crime (UNODC) in Antigua from October 30 to November 1, 2013. Authorities had also indicated for the 4th and 5th Follow-Up Report, that customs officers continued to receive training, including customer profiling, counterfeit currency identification, intelligence gathering (Jamaica) and early warning systems and fraud detection and control, just to mention a few. Outstanding matters for this Recommendation are the modification to the Customs Ordinance with regard to penalties being more dissuasive; liability or offences of making a false declaration (though some constitutional issues to be reviewed first) and for the Customs Department to explore the involvement of airline and vessel senior management in currency interdiction operations.

POST-PLENARY FINAL

2. ML offence – mental element and corporate liability	LC	<ul style="list-style-type: none"> The authorities should consider consolidating the three pieces of legislation governing money laundering. Having the MLPA, POCA 1992 and POCA 2003 in force with differing penalties for ML and definitions for certain key terms will give rise to confusion and has affected the ability of law enforcement and prosecutorial authorities to aggressively pursue ML offences. 	<p>The Consolidation of the POCA /ML bill is in the process of finalization by the Consultant. It is expected before the end of September 2011. The new FIU Bill is in its final stages before the Houses of Parliament. It is expected to be passed by the next sitting. Enacted by Act 14 of 2012.</p> <p>Consolidation of POCA/ML bills has been completed. POCA Act 6 of 2012 is now in effect and the following Acts have subsequently been repealed:-</p> <ul style="list-style-type: none"> a) POCA No. 27 of 1992 b) POCA No. 3 of 2003 c) Money Laundering (Prevention) Act, No. 18 of 1999 <p>ML offences are now addressed under one act.</p>	
3. Confiscation and provisional measures	LC	<ul style="list-style-type: none"> Given the high rate of drug-related offences occurring in Grenada, authorities should place greater emphasis on the automatic confiscation mechanism following conviction available to the DPP in accordance with POCA 1992 and 2003 	<p>To date 12 Production Orders have been served on Institutions and 10 restraint orders on properties in investigation, confiscation and forfeiture.</p> <p><u>UPDATED INFORMATION : Aug 2013-Jan 2014</u></p> <p>The RGPF in collaboration with the ODPP has provided the following statistics for the year 2013 to January 2014 in Drug related cases:-</p> <ul style="list-style-type: none"> 535 Drug Cases 219 convictions 84 cases withdrawn 232 cases pending <p>During the period August 2013 to December</p>	

			<p>2013, the estimated street value of drugs seized by the RGPF amounted to the following:-</p> <p>Cannabis - 168.9 KG = EC \$844,500.00 Cocaine 459.5 G = EC \$45,950.00</p> <p>The RGPF - Drug Squad Unit in its proactive approach towards the alleviation of drugs and crime, on March 26th carried out intelligence operations which lead to the discovery and uprooting of approximately 5000 Cannabis trees in a remote area in the North of the island. There were no suspects arrested.</p> <p>Part II , Section 6 of POCA 2012 empowers magistrates to make confiscation and forfeiture orders Part IX, Section 49 also addresses this area of concern</p> <p><u>UPDATED INFORMATION - JULY 2014</u> The RGPF in collaboration with the ODPP has provided the following statistics on Drug Cases for the period February to July 2014.</p> <p>Total No. of Drug Cases - 248 Convictions - 87 Cases Withdrawn - 26 Cases Pending - 135</p> <p>Estimated street value of drugs seized during the period February to July, 2014:-</p> <p>Cannabis - Approx. \$1.3m EC Marijuana cigars - approx. \$7,235. EC</p>

8. New technologies & non face-to-face business	NC	<ul style="list-style-type: none"> Financial institutions should be required to have policies in place that mitigate the misuse of technological developments by money laundering and/or terrorist financing schemes. (Rec. 8 Para 52) Financial institutions should be required to have written procedures and a suitably robust risk management framework that mitigates the risks associated with non-face to face transactions. Measures for mitigating risks should include specific and effective CDD procedures that apply to non-face to face customers. (Rec. 8. Para 52) 	<p>Proceeds of Crime (anti-money laundering and Terrorist Financing) Guidelines 2012 provides for non-face to face business relationships</p> <p>The AMLTF Guidelines were passed in Parliament by negative resolution Section 31 (4) states that where identity is verified electronically or copies of documents are relied on in relation to a non-face to face application for business, an entity or a professional shall, in the absence of the application of section 21(8) apply an additional verification check, including the enhanced customer due diligence measures, to manage the potential risk of identity fraud.</p> <p>21 (8) applies with respect to non-face to face business relationships.</p> <p>Additionally Financial institutions also have their own internal procedure to govern this area. Documents relating to non-face to face business must be original and must be notarized, and must emanate from the holder of an account at the Bank. A letter signed by the customer can be faxed to the financial institution requesting a particular transaction to be carried out; an officer at the financial institution must be able to identify the customer. However the financial institution must receive the original letter within two weeks of the receipt of the faxed letter.</p>	

			<p>In addition some financial institutions have established their own 'risk assessment department' whose function to ensure that requirements of the Guidelines and the FATF 40 plus nine recommendations are adhered to. This department is headed by a Manager who is charged with the responsibility of ensuring the effective day to day operations of the department as it relates to AML/CFT.</p> <p>The AMLTF Guidelines were passed in Parliament by negative resolution.</p> <p>Drafting of amendment to Section 31 by adding new sub-section (5) to include measures for mitigating risks to include specific and effective CDD procedures that apply to non-face-to-face customers has been completed but has not yet been laid in Parliament</p> <p>With respect to the Guidelines being confirmed by negative resolution, be advised that the Parliament is now dissolved and Grenada held its general elections on 19th February, 2013. A timeline cannot be presently ascertained as to the opening date of Parliament however all amendments will be prepared in readiness.</p> <p>This would invariably address a number of comments under this recommendation.</p> <p><u>UPDATED INFORMATION - JANUARY 2014:</u>Resolution giving legal effect to the Guidelines SRO 6 of 2012 was passed by the House of Representatives on 28/5/13</p>

<p>27. Law enforcement authorities</p>	<p>LC</p>	<ul style="list-style-type: none"> Competent authorities should consider developing a standard operating procedure, delineating the parameters within which they should operate when the decision is made to postpone or waive the arrest of suspected persons and/or the seizure of money or to use special investigative techniques. Greater priority should be given to the investigation of ML / TF cases by the Police and the DPP's Office. 	<p>Further discussions were planned to determine specific measures in these areas</p> <p>Already in place. There is one person specifically appointed at the DPP's Office to deal with ML/TF cases. She is presently being trained by a UK expert in that field from UKSAT (United Kingdom Security Advisory Team)</p> <p>Officers attached to the FIU have received specific training by UKSAT in this area and have also worked closely with them on related investigations. During 2009- 2010 officers also received training in financial investigation at the Regional Police Training Centre in Jamaica. Other workshops attended were :</p> <ul style="list-style-type: none"> Sub-regional workshop for Caribbean on Counter Terrorism Financing, - June 2010 – Bahamas; Combating Counterfeit products – Trinidad – Sept. 2010. <p>Between February and March 2011, two officers will receive training in Financial Investigation and suspect interview.</p>	
--	-----------	---	---	--

			<p>During 2011 one Officer was seconded on a 2-months attachment programme (October-December) to St. Vincent FIU. Area of concentration was techniques and procedures in financial investigation.</p> <p><u>UPDATED INFORMATION : Aug 2013-Jan 2014</u></p> <p>The ODPP in collaboration with the FIU continues to jointly prosecute and convict cases of ML.</p> <p><u>UPDATED INFORMATION - JULY- 2014</u> The ODPP and the FIU continues to jointly prosecute ML and drug cases. During the period February to July 2014, there were three completed drug cases and one money laundering case is presently ongoing.</p>	
28. Powers of competent authorities	LC		<p>The Police Act Cap. 244 of the 1990 laws of Grenada, and Section 22 (3) and <u>Judges Rules of 1989</u> gives the RGPF general powers to investigate crime including the power to take witness statements.</p> <p>Copy of Royal Grenada Police Force – Judges’ Rule and Other Administrative Directions (Grenada) 1989 is attached</p> <p><u>UPDATED INFORMATION - JANUARY 2014</u> Statements are addressed in s. 116 of the Police Regulations states “In all cases, even the most trivial; one short statement at least is to be</p>	

			taken. In important cases as many statements as possible which bear on the case must be taken”(copy attached) JULY 2014 - GAPS CLOSED	
29. Supervisors	LC	<ul style="list-style-type: none"> The GARFIN Act should be amended to provide for ladder of enforcement powers 	The GARFIN Act only creates or establishes the GARFIN Authority. It's enforcement powers comes from each individual piece of legislation for which it is responsible. The enforcement powers in each piece of legislation are satisfactory.	
30. Resources, integrity and training	PC	<ul style="list-style-type: none"> Grenadian authorities should consider providing additional financial and technical resources to law enforcement agencies. 	<p>The Vision of the RGPF is to maintain a professional force, emphasizing modernization through training and development of personnel by making use of science and technology while working with the community and regional and international organizations, to meet the needs of a changing society. The Government of Grenada endorses this vision and is endeavoring to provide adequate support both technically and financially to facilitate successful operations of the RGPF.</p> <p>It is important to note that there are always newer and more modern technology evolving. Through its own resources, that of Financial and Technical Assistance from donor countries (FATF), US Embassy and counterpart funding, the Government of Grenada and RGPF</p>	

		<p>endeavors to keep abreast with the technological advancement in its effort to combat ML/TF.</p> <p>Units of the RGPF directly involved in combating ML/TF i.e. Drug Squad Unit, Special Branch, the Coast Guard, Immigration Unit and the FIU, all receive ongoing training and attend local, regional and international training in AML/CFT organized by SAUTT based in Trinidad & Tobago, REDTRAC based in Jamaica and UKSAT, USDOJ, OAS, UNDOC, just to name a few. Opportunities for regional attachment programmes are also utilized by the RGPF.</p> <p>The ODPP recently received training in ML/TF by UKSAT.</p> <p><u>UPDATED INFORMATION : Aug 2013-Jan 2014</u></p> <p>During 2012 & 2013 the following Governments and agencies rendered technical and financial support to the FIU :-</p> <ul style="list-style-type: none"> - Gov't of the United States through their regional embassies - United Kingdom - Eastern Caribbean Financial Investigative Advisory Team (ECFIAT) <p>Recruitment Selection of the RGPF is done at two levels. Vetting is done along with an interview, there is also careful screening of</p>	
	<ul style="list-style-type: none"> • Authorities should consider reviewing the measures in place for ensuring that persons of high integrity and good moral character are recruited into the RGPF and that there is continuous monitoring of officers professionalism, integrity and lifestyle. 	<ul style="list-style-type: none"> • Authorities should consider 	

		<p>reviewing the training needs of the ODPP as well as RGPF. The CID which is primarily responsible for investigating financial crime is inadequately trained in that area.</p>	<p>criminal records and community interviews, to access moral standing before selection process is completed.</p> <p>The officers of the RGPF is guided by a Code of Conduct and the Police Act which measures the conduct of its officers. If an officer is found to be in breach, a formal disciplinary procedure is administered. Because of the size of the country it is relatively easy to investigate any criminal activity of an officer.</p> <p>Additionally, there is a Community Relation Department which is operational; one of its purpose is receiving complaints on Police Officers. If necessary the complaints are investigated and appropriate action taken. With respect to Senior Officers of the RGPF, i.e Inspectors upwards, they are governed both under the Police Act and the Public Service Commission Rules and Regulations. Any disciplinary action is taken by the Public Service Commission through the same process administered for all Public Servants.</p> <p>There is also the constant monitoring of actions. Moreover the integrity of the RGPF is not one of grave concern since there is zero tolerance for breaches of discipline and criminal activity. Because of the size of the force there is not much room for breaches of discipline to go unnoticed.</p> <p>The specialized units such as the Drug squad,</p>	
--	--	---	---	--

			<p>Special Branch and Coast Guard undergo polygraph tests once every 3 years; they are chosen because they are more susceptible to corruption given that they assist in undercover investigation in ML/TF.</p> <p>The ODPP continues to receive Technical Assistance from UKSAT during 2011.</p> <p>Grenada has submitted its list of training needs to the CFATF for consideration. The list included CFT training for financial and law enforcement authorities. We await information from CFATF as regards to the general Technical Assistance and Training Matrix which should have been considered by the Donor's Forum, on any assistance offered to member countries in this specific area.</p> <p>The RGPF Drug Squad division receives ongoing external training in this area.</p> <p><u>UPDATED INFORMATION : Aug 2013-Jan 2014</u></p> <p>Officers of the RGPF received training in the following areas during August 2013 to January 2014 :-</p> <ul style="list-style-type: none"> - Sub-regional workshop on cyber security - (1 officer attended - 11-13 November, 2013 – Uruguay – Rank of Officer - Inspector - Commonwealth project on capacity
